

THE CENTRAL RECORD.

THIRTYTHIRD YEAR

LANCASTER, KY., THURSDAY AFTERNOON, JUNE 8, 1922.

NUMBER 9.

FREE TRIPS

To Be Given Boys and Girls
To Junior Week at Uni-
versity of Kentucky
CENTRAL RECORD GIVE ONE

At a meeting of the Chamber of Commerce on March 31st, 1922, Mr. Garside, assistant Club Leader of the College of Agriculture, at Lexington, gave a very interesting discussion on club work for boys and girls in Kentucky. As a result of this splendid talk, the Chamber of Commerce became interested and has offered two free trips for the Junior Week, which meets at Lexington on June 12th, to 24th, for Garrard county boys and girls. The Central Record because of its interest in the boys and girls of Garrard county has also agreed to give one free trip, which includes transportation, tuition and one week board at the University. The R. J. Reynolds Tobacco Company, through the club department of the College of Agriculture, has given transportation to and from Lexington, for one boy or girl.

The selection of the boys and girls, who will be given these trips, will be made on a basis of merit. Miss Joyce Syler, the County Home Demonstration Agent, conducting the examinations, the questions covering the following topics:

"Record as a Junior Club member, Familiarity with rural life."

The result of the examination showed the following received the highest marks: Messrs. Julian Elliott and M. G. Aldridge, highest grade for boys and Misses Elizabeth Rich and Lucille Stapp highest for girls.

The program for the week will be interesting and instructive. The mornings will be devoted to class work, nature study, farm life in the home and on the farm. The afternoons will be taken up with amusements, athletics, etc.; the evening will be taken up with story telling, picture shows, bonfires, etc.

The boys and girls during the entire week will be in charge of the men and women of the University and will be cared for in the dormitories of the college. Miss Syler will of course be on hand during the entire week.

The work which Miss Syler has done for the boys and girls of Garrard county is commendable indeed. The County Board of Education recognizing the valuable services she has given and seeing the results in the schools of the county, has already made an appropriation of \$300, on her salary for the coming year, which begins July 1st. The Garrard County Fiscal Court has always voted the same amount and will doubtless do so again at its next meeting. This splendid work should not cease, especially as the state and government pay one-half of the salary of all Demonstration Agents.

Group Eight

OF KENTUCKY BANKERS ASSO-
CIATION TO MEET FRIDAY

Group Eight of the Kentucky Bankers Association will hold their annual meeting at Crab Orchard Springs Friday, June 9th. The meeting will be called to order by Mr. S. H. Nichols, cashier of the Boyle Bank and Trust Company, of this city, who is President of the Group.

Those who are on the program for talks are Hon. Joseph Haselden, Frank Root, of Lawrenceburg; Hon. C. D. Minor, of Perryville; Geoffrey Morgan, of Louisville; George E. Allen, West Baden, Ind.; F. H. Engelen, Lexington; J. M. Johnson, Lawrenceburg, and R. H. Burman, of Richmond.

Residence Sold

The Arnold residence as advertised, was sold by Swinebroad, the real estate man, last Saturday, at public outcry, the price being \$2,400 and was bought by H. D. Lee. Possession of the property will be given September 1st.

Brother Dies

Mr. R. H. Hatson received a message Sunday morning announcing the death of his brother, Dr. John D. Hatson, who died at his home in Oklahoma City after an illness of several months, caused by hardening of arteries. Dr. Hatson is well remembered here where he visited his brother at one time, staying several months.

We want to sell you a new buggy for cash or note. Price right. W. D. Pryor and Co.

27 YEARS AGO

THIS WEEK

Items Culled From the Files
Of The Central Record
JUNE 7th., 1895

Mr. J. Raymond Haselden, the popular young hardware dealer, and tinner, met with a painful accident Tuesday morning. He was in his spring wagon, starting out to do some work, when the seat slipped, throwing him violently to the ground. His left shoulder was dislocated and a small bone broken. Very fortunately he has an accident policy with a local agent, which will pay him while he is disabled.

Commencement exercises of Garrard College were held at the Christian church Wednesday morning. Diplomas were presented to two graduates, Misses Francis Helen Berry and Mamie Phillips. Music was furnished by pupils of Miss Minnie Elliott, and showed careful training she had given the class.

While putting a roof on the home of T. S. Elkin, near town, Tuesday, Mr. George Smith, carpenter, lost his footing and fell to the ground. His left shoulder struck a picket fence badly lacerating the flesh and causing a painful wound.

W. McJohnston, J. Hunt McMurtry, John Duncan, John Homer, D. R. Collier, Rice Benge and Alfred Dunn, were sent to the Republican Convention at Louisville as delegates.

George O. Barnes is in an interesting meeting at the court house, preaching to crowded houses every night the gospel of "God is love and nothing else."

Zeik Reid is shot by Nick Leavell on "Battle Row," the result of a quarrel over a recent election. Reid is badly hurt.

Postmaster James Hamilton has established a Sunday mail between Stanford and Lancaster.

Clayton Arnold bought a nice bunch of hogs of Fine Cook at 4 cents a pound.

Twenty Years Ago This Week
Coming—the automobile.

A local option election has been called for the Buckeye precinct. Mr. and Mrs. W. I. Williams are receiving congratulations upon the arrival of a fine boy, christened Bradford Jennings Williams.

Bourne—Judy

Last Saturday afternoon at the Broadway Christian church parsonage in Lexington, Miss Dodo Bourne, youngest daughter of Mr. and Mrs. J. B. Bourne, of this county, was married to Mr. Frank Judy, of Prestonsburg, Rev. Mark Collins officiating. The marriage was a surprise to all except members of the immediate family. Miss Bourne is exceedingly popular and beautiful. The groom is a son of Mr. W. D. Judy, formerly of Winchester, but now a resident of Florida. He is a very capable young man, being a coal operator of Prestonsburg, where the happy couple will make their home. The best wishes of many friends go with them and hope that their life together may be long and a happy one.

Scott—Montgomery

Miss Addie Scott, daughter of Mrs. Charlie Scott, of Hyattsville, was married to Mr. John Montgomery, of this city, the ceremony being performed by Rev. W. E. Rix at the Baptist parsonage.

Mr. Montgomery is well known and popular around town, serving on many occasions as traffic marshal and deputy city marshal. His bride is popular, well known and will prove a valuable helpmate through life, which all friends hope will be filled with happiness.

The United Limericks Of America

A man in the hills of Ky.
Is said by his friends to be ly.
When he gets in a feud,
If he has a large breed
Of sons who can shoot and are ply.
There was a young fellow in Fla.,
Whose heart became torrid and ta.,
'Twas no use to beseech
The peach at the beech,
For she treated him horrid and ha.—
American Legion Weekly.

Trustee Named

Mr. G. B. Swinebroad was named as trustee to wind up the business of David Dudderar, bankrupt. A schedule of Mr. Dudderar's liabilities showed about \$20,000 with less than \$1,500 assets.

Dr. Pryor, Veterinarian. Phone 108, Lancaster, Ky.

MASS MEETING

Last Saturday in Interest of
Red Cross

MISS WESTOVER ENDORSED

Realizing the excellent work that has been accomplished in Garrard county by the local Chapter of the Red Cross, and the untiring energy that has been given this work by Miss Eva Westover, those who saw the opening program of the Baby Clinic last Thursday, started a petition calling for a mass meeting of the citizens of the town and county for Saturday afternoon, which resulted in a large crowd assembling at the court house at the appointed hour.

Dr. A. T. McCormick, secretary of the State Board of Health, was invited and was present. He made a splendid appeal for the retention of Miss Westover in Garrard county, whose work here had been advertised all over the state, he said. It was through her work in Garrard county, Dr. McCormick said, that the \$20,000 appropriation was given by the last Legislature. Just when it looked as if the bill would fail of passage, R. D. McMurry, Garrard representative in Legislature, took the floor and told of the excellent work that had been accomplished by Miss Westover in Garrard county. Dr. McCormick stated, and saved the day for this liberal appropriation.

Does the people of Garrard county appreciate this work, is the question that is now before her people and will be brought before the Fiscal Court in the next few days, that it may consider an appropriation sufficient to continue the services of Miss Westover for another year, her present fiscal year ending July 1st. A failure to do this would be a step backward, in one of the best and most important works ever undertaken in Garrard county.

Laurel Bad Man

Defies Circuit Judge

London, Ky.—On orders from Judge Hiram Johnson to bring into court Frank Helton and his followers, Sheriff J. E. Stringer and a posse have spent the last two days and nights in the wilds around Rock Castle Springs. At the February term of court Helton, the alleged leader of a lawless gang, was given 13 jail sentences for contempt of court, but escaped while working on the road near London.

He has since been at large, sending messages of defiance to the court officers declaring he would kill any one who attempted to arrest him. Recently Sheriff Stringer returned with Dora Reedy, Myrtle Whittaker and Hiram Wells and placed them in jail. It is said they are members of Helton's gang and had notified him of the approach of the officers. Helton's home was raided and four heavy guns and more than 100 rounds of ammunition were brought to London. He is hiding in the Rock Castle river cliffs, heavily armed.

Sheriff Stringer has returned to the vicinity of Rock Castle Springs with additional deputies armed with high powered rifles and having orders from Judge Johnson to stay till Helton is captured.

Appointed Abstracters

Messrs. Robert H. Tomlinson and Robert H. Hays, young attorneys of this city, composing the firm of Tomlinson & Hays have recently been appointed representatives and abstractors for the Louisville Joint Stock Land Bank. This large land bank is organized under the Federal Farm Loan Act and is prepared to make loans on good farms in Garrard county in amounts ranging from \$2,500 up to \$35,000, no commission being charged. Their proposition is an attractive one and Messrs. Tomlinson and Hays are congratulated upon their appointment.

Good Show

The school auditorium was practically filled last Monday evening, when the Senior class of Herea came down and presented Booth Tarkenton's four act comedy, entitled, "Clarence" in a way that was pleasing to the audience and which showed careful training upon the part of all that participated.

The door receipts amounted to about \$65, a portion of which went to the B. Y. P. U. of the Baptist church.

No Credit Extended

The world owes us a living;
We hold this truth to be.
But nevertheless it always comes
To us marked C. O. D.—American Legion Weekly.

Crab Orchard Springs

Has Auspicious Opening

Record Attendance at Popular Resort Last Thursday

Under the most favorable auspices, the Crab Orchard Springs popular health and pleasure resort, opened its doors to the public last Thursday, as is its custom every year, and with it brought the largest gathering ever seen there upon any similar occasion. Senator Joe Haselden, who can always give you the glad hand, was in his happiest mood that day and made every one present felt that it was good to have been there. Every year marks new and important changes in this famous resort and this year is not an exception to this rule. Everything for the convenience and pleasure of the guests has been looked after, until today, Crab Orchard Springs stands out foremost among the popular watering and health resorts of the country.

The feature of the opening day was the grand ball in the evening when several hundred couples tripped the light fantastic. Many conventions will be held there during the coming season, among them the mid-summer meeting of the Kentucky Press Association. The Eighth District Bankers will hold their session there tomorrow, (Friday) and several hundred will doubtless attend.

The Laundry Owners of America held a three day session there last week, and all left singing the praises of the Springs management and the entertainment that was given them during their short stay.

Good Stock Sales

Made by Dixie Stock Farm Recently

Sanders Brothers and John M. Amon, proprietors of the Dixie Stock Farm, report the following sales made recently.

Two nice Poland China gilts to H. H. Givens, Napfor, Ky., at \$60 each; one to H. M. Quarles, Frankfort, Ky.; a nice boar to Clyde E. Walt, Cynthiana; gilt pig to Duncan Haselden; one to Robert Gulley; eight gilts and one boar to T. I. Yantis. The above sales were all Poland Chinas of the highest type. These gentlemen also sold two South-down bucks to R. A. Dodd, of Nicholasville and a Dorset buck to Squire R. L. Barker of this county.

Lancaster Mill

Sold to J. R. Meyers, of Scottsville

The Lancaster Flour Mills were sold at public auction last Saturday, the purchaser being Mr. J. R. Meyers, of Scottsville, Ky. The price paid was \$8,900. Possession will be given at once, and Mr. Meyers together with his wife and one child will move to our city, where they will be given a cordial welcome. The mill is the oldest in the city and has a wide reputation for the splendid flour it has put out in the past and we predict for it a great future in the hands of the new owner, who comes to us as a man of wide experience in this line of business.

Ready For Business

The store room of Dickerson and Hamilton, successors to W. B. Ball, have just completed the interior of the building, by rearranging the stairway, painting and papering and today it is one of the handsomest store rooms in the city. This firm will carry a complete line of general merchandise, and are receiving daily shipments of dry goods and notions. Give them a call and watch for their big advertisement which comes out soon.

Leave For Cincinnati

We regret to note that Mr. and Mrs. J. D. Prather, after many years spent in Lancaster, went to Cincinnati last Sunday, where they expect to reside in the future. The many warm friends they leave behind will miss them, but the best wishes of the community and town go with them in their new home. Their daughter, Miss Ora Prather, will remain here where she will teach again the coming season.

The Infallible

Patient: "What shall I do for insomnia, Doctor?"
Physician: "Every evening keep repeating to yourself: 'I am a night watchman. I am a night watchman. I am a night watchman.'—American Legion Weekly.

We want to sell you a new buggy for cash or note. Price right. W. D. Pryor and Co.

EXCITEMENT

Mr. Menefee, of the Department of Justice, Arrives in
Danville to Investigate
Serial Numbers on
Automobiles

Hundreds of Cars Sold in Central

Kentucky With Apparently
Changed Serial Numbers

Sheriff W. Logan Wood and his alert deputies, Jesse W. Overstreet and John W. Webb, have been extremely busy today in connection with Mr. J. S. Menefee, of the Department of Justice, Washington, D. C. It is reported that hundreds of automobiles, mostly Fords, have been sold in Central Kentucky and that the original serial numbers on the engines have been filed out and new numbers substituted. The numbers on a large percentage of the Ford cars in Danville were examined and a record taken by Mr. Menefee. It is said that many people have been victimized as the result of having been sold cars which were stolen, and the numbers changed by experts. Dealers as well as the purchasers have been likewise tricked, it is stated. Cars were stolen for instances in Omaha, Nebraska, and brought to Lexington and other points and sold. Considerable excitement has been occasioned in the old town today and crowds gathered around the machines as the high government official gathered the statistics. No charges, however, have been preferred against any one and none of the cars seized as the numbers have to be further investigated to find if really any offense has actually been committed. The reason the Federal government is taking a hand in the investigation is due to the belief that cars stolen in one state were driven to another state to be sold.—Danville Advocate.

Royston

James A. Royston, aged 76 years, died at his home in Hill Court here last night at 8:45, after an illness covering the past three years. Mr. Royston was one of the best known citizens of Lancaster and Garrard county. He had many personal friends that will be grieved to learn of his passing. He was a member of the Methodist church and devout in his teachings.

He is survived by his widow and three children: Mrs. E. C. Gaines, of this city, Miss Anne Royston, of Chicago and Mr. Claude Royston, of Chicago. One daughter, Miss Nellie, preceded him to the grave about twenty years ago. The sympathy of the community go out to the bereaved family in the loss of an affectionate husband and an indulgent and devoted father.

Funeral services will be conducted at the Lancaster cemetery by Rev. Price T. Smith Friday afternoon at 3:30, interment following immediately after.

Football Men

Ruled Out

Several members of the Centre College football team, who engaged in a game between the local American Legion team and the team representing Pleasureville, are reported to have been given a professional rating and to have been declared ineligible to any further college games.

The Pleasureville management secured the college players for the game and hid them away in a barn until time for the fracas to begin. The local team played well, but was outclassed by the outfit that Pleasureville had gathered. Several of the men who are in trouble with the Centre College authorities were here Tuesday in an endeavor to gather evidence to support their side of the case.—Shelbyville Record.

Moves Shop

Mr. J. A. Tucker has moved his cabinet shop to the front of Walker Bros. warehouse, just below the shop he formerly occupied. Mr. Tucker is a high-class cabinet workman and will be glad to do your work.

New Wagon

Have you seen the new ice wagon of Bastin Brothers? It is a dream of beauty and the proprietors are just as proud of it as Charlie Poff is of his pony.

Way They Look At It

Citizen: "Why didn't you arrest that woman for murder?"
Cop: "Oh, it's alright—it was her own husband that she killed."—American Legion Weekly.

BABY CLINIC

Held Under Auspices of Local
Red Cross Brings Out
Large Attendance With
100 Babies Exhibited

Big Parade Attractive Feature

Decidedly one of the biggest events ever undertaken by the local Red Cross Chapter and one that proved a success in every particular, was the Baby Clinic held in Lancaster last Thursday, Friday and Saturday. The little tots began arriving in town early and before noon fifty babies under one year old were brought into the court house accompanied by their mothers, and occasionally a proud father came along, just to show that he too was also interested.

A more beautiful and healthy lot of babies were never before seen together in Lancaster. The program which had been so carefully arranged by Miss Eva Westover, our local Red Cross nurse, and Dr. J. E. Edwards, our county Health Officer, was carried out to the letter, each baby being carefully examined, weighed, measured and scored, by Dr. Edwards, assisted by a competent corps of helpers, chief among them being Mrs. George Smith, who was the chairman of this feature of the program.

While no prizes were given or offered for the handsomest or the most perfect baby, all entrants received a handsome certificate, which doubtless will be prized by the proud parents and in later years by the entrants themselves. One of the most interesting features of the entire program was the parade of all the entries Thursday afternoon. Fifteen automobiles were required to carry the babies, some of which contained as many as seven babies. The Lancaster Brass Band headed the parade and furnished entrancing music, then followed a fine Jersey cow lead by a proud boy, the large sign on the cow read, "Babies I am your best friend." The first car in line contained the six grand-children of Dr. and Mrs. J. B. Kinnaird and a handsome bunch would be hard to get together. The parade was warmly cheered by the hundreds that lined the sidewalks and many warm congratulations were given Mrs. Ross Bastin, who was chairman of the parade committee, for this part of the entertainment which was a success in every particular.

The committee in charge of the dinner, deserve equally as much credit for its part of the work, which bountifully provided milk for all the babies as well as a nice lunch for the grown-ups.

The rain Friday marred the attendance of the babies over one year and under two years, but many braved the weather and several dozen were looked after on this day. Saturday was for babies or rather children over two years and under six years old and many were on hand and another enjoyable day spent. Those who failed to attend this baby conference missed a treat, for it would have convinced anyone that the work of Miss Westover in Garrard county has not been in vain. Her work should not cease and many expressions that day were, that the Fiscal Court of Garrard county should appropriate funds to carry on this splendid work.

Live Stock Markets

Cincinnati, June 7—Hogs receipts 5,500; active and strong. Heavies \$11.00; packers and butchers \$11.00; medium \$11.00; stags \$5.00 to \$5.50; heavy fat sows \$7.00 to \$8.50; light shippers \$11.00; pigs 110 pounds and less \$8.00 to \$11.00.

Cattle receipts, \$8.00; steady; steers good to choice \$7.00 to \$8.50; fair to good \$6.50 to \$7.50; common to fair \$4.50 to \$6.50; heifers good to choice \$8.50 to \$9.00; fair to good \$6.00 to \$8.50; common to fair \$4.00 to \$6.00; cows good to choice \$5.00 to \$6.00; fair to good \$3.50 to \$5.00; cutters \$2.75 to \$3.25.

Hens In Demonstrations Show Summer Feed Value

One of the striking things being brought out by the 47 Kentucky farm poultry flocks that are being conducted as demonstrations by their owners who are co-operating with the College of Agriculture extension division in showing the best methods of managing farm flocks is the fact that mash, skim milk or buttermilk fed to the hens during the summer helps increase their egg production. Many farmers are inclined to believe that as soon as their hens are allowed to range over the farm it is unnecessary to feed them in order to get the largest number of eggs, poultrymen at the College say.

"This is a mistake that seriously curtails the production of flocks in the State," J. H. Martin, in charge of the college poultry work said. "In order to produce the largest number of eggs during the summer, hens must be made to consume considerable mash or be given plenty of sour skim milk in addition to the feed which they pick up while ranging over the farm. If the hens are fed mash, it is a good plan to confine them in the house until about 9 o'clock in the morning during which time they should have nothing before them but mash and plenty of fresh water. In this way, they consume the necessary amount of mash before starting to range. The mash should contain at least one-fifth tankage by weight if best results are obtained."

"If an ample supply of buttermilk or sour skim milk is available, the mash will not be necessary. The flock should consume about one gal-

lon of milk a day for every 30 hens. If allowed plenty of milk, the hens will need no water and in case they are inclined to drink at water troughs and other places, it may be well to confine them for a short time in the house each morning with the milk available.

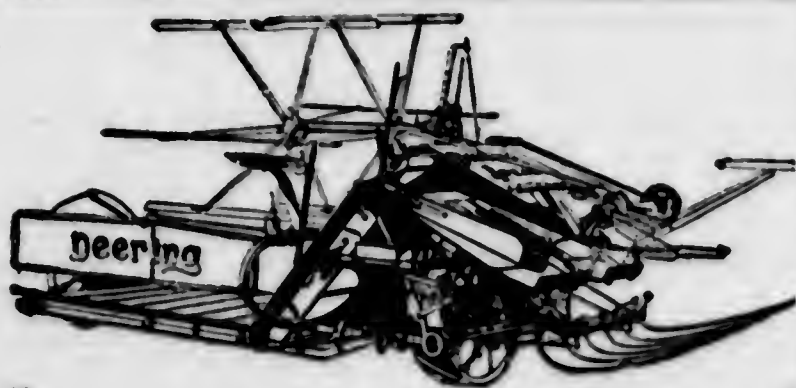

In addition to increasing egg production, this method of summer feeding has added advantages. Mr. Martin pointed out. It allows the farmer to cull his hens more accurately inasmuch as the good hens will lay better while the poorer hens will not lay no matter how well fed.

One Drop
Bourbon Poultry Remedy
A few drops is food for the sick and prevents white diarrhea, cholera and other chick diseases. Use daily to keep your chicks healthy. Don't wait until disease strikes. Get it today. Small size 5c, half size 10c, plus 10c. All druggists, or by mail postpaid. Bourbon Remedy Co., Lexington, Ky.

True Sayings.
"The love that craves two hearts to beat as one does not guarantee a continuous performance," wrote the late Edgar Saltus. He also made this true observation: "Life is packed with delights—whichever the majority of us never enjoy. The world is full of charming people—whom few of us ever meet."

"Mileslang."
There are several theories as to the origin of the name Mileslang as applied to the Irish. One is that the country was first settled by colonists from the island of Miles (modern Miles) in Greece; another that the name is derived from Milesius, an early conqueror, while still others claim the term is taken from the Latin "miles," a knight.

Farm and Home News From Over Kentucky

In order to determine the highest yielding variety of corn for that section of the State, six Taylor county farmers are co-operating with the College of Agriculture extension division in conducting corn variety tests, County Agent J. I. Miller says. Ten varieties are being tested by each of the farmers.

Legume crops are attracting lively interest among Breathitt county farmers, according to County Agent R. V. Trosper. Thirty-five of them are growing soybeans and sweet clover.

Orchard demonstration being conducted by Livingston county farmers who are co-operating with the College of Agriculture extension division are accomplishing much in showing farmers in this section of the State the value of recommended orchard practices, County Agent L. C. Pace says. The demonstrations have just applied the fourth spray to their orchards. The trees in all cases are remarkably free of insects and diseases, he added.

Six thousand Barred Plymouth Rock hatching eggs and 500 baby chicks were distributed to McCreary county farmers this spring in furthering the poultry standardization campaign being conducted over the State by the College of Agriculture, according to County Agent W. H. Woodward.

Junior agricultural club members in Lewis county are giving plays and ice cream suppers as a means of raising money with which to send a delegate to Junior Week to be held June 19 to 24 at the College of Agriculture at Lexington for farm boys and girls of the State, County Agent R. O. Bate says.

HOUSEWORK IS A BURDEN

Woman's lot is a weary one at best. But with backache and other distressing kidney ailments life indeed becomes a burden. Doan's Kidney Pills have made life brighter for many Lancaster women. Ask your neighbor! Read what Mrs. Hester Gains, Compton St., Lancaster, says: "I have had attacks of kidney trouble that caused my back to ache so I could hardly get around to do my housework. There was a dull, nagging ache across the small of my back that throbbed and pained dreadfully at times. Mornings I was so lame in my back and hips I could hardly stoop over to put my shoes on. My kidneys were irregular and acted too freely and otherwise bothered me. I got Doan's Kidney Pills at McRoberts Drug Store and a short use cured me of the attack. I haven't been troubled with backache since."

McROBERTS DRUG STORE

Insects and Diseases

Threaten Record Blooming of Roses

Rose bushes in practically every section of the State are blooming in exceptional fashion this year but inquiries being received at the College of Agriculture from many growers indicate that numerous insects and diseases profuse blooming.

When bushes show signs of disease or insect infection, a careful diagnosis must be given first to determine the exact cause of the trouble, according to recommendations made by N. R. Elliott, of the college extension division. Insect injury may be caused either by biting or sucking insects, different treatments being required in either case. Treatments differing entirely from those applied for insect damage must be used when the trouble is caused by a disease.

At this particular season of the year, a considerable amount of the trouble probably is being caused by the plant aphid. This insect belongs to the sucking class and can be controlled by spraying the bushes with commercially prepared tobacco mixtures. A little later in the season, the common insect that bothers roses is the chaffer, this one belonging to the biting class. It is controlled by spraying the bushes with arsenate of lead. If the leaves become affected with a fungus growth, they must be treated with Bordeaux mixture.

In using any of the three remedies named, it is best to follow the instructions given on the package. All three can be purchased in a commercial form at any drug store, water being the only thing needed to make the materials ready for use. This is perhaps the best way to buy the materials and in general will give better results than when they are prepared at home.

Noisless Bird.
The plumage of the owl is so enveloped in fine and downy filaments; that its flight is noiseless, says the American Forestry Magazine. It takes its victims unaware and therefore is able to overcome animals much larger and heavier than itself.

KILL NUISANCES WITH WAR GASES

Deadly Fumes Being Tried to Destroy Noxious Birds, Animals and Insects.

SOME PROMISE TO BE USEFUL

Migratory Blackbirds Do Damage Amounting to Thousands of Dollars in Imperial Valley of California—Injure Mito Crop.

(Prepared by the United States Department of Agriculture.)

Deadly gases that were developed for war purposes are now being tried out by the United States Department of Agriculture as a means for destroying noxious birds, animals, and insects. Some of them promise to be useful when applied under proper conditions, particularly those that are heavier than air and can be used on burrowing rodents, and possibly subterranean insects and pests in stored products.

Kill Destructive Birds.

The most recent proposal is to use gas to kill destructive birds that congregate in marshes. In the coming fall the biological survey, in co-operation with the chemical warfare service, is planning to make a trial of the method on blackbirds in the Imperial valley of California. In that region these birds are said to do at least \$50,000 worth of damage to the mite crop each year. Because of their feeding habits it is impossible to destroy these birds with poisoned baits, but, as they roost on the reeds in the marshes, it is thought that they can be killed by gas cloud at night when the wind is favorable. The blackbirds are migratory and return to the same places year after year. It is thought that a big killing in a certain locality will probably free it of the pests for many years. A few other birds in the blackbird-infested marshes will be killed at the same time, but the department believes that these local birds will soon reach their normal numbers again.

Try Gas on Rodents.

Arrangements also are being made by the biological survey with the chemical warfare service for investigating the possibility of using poison gases on such burrowing rodents as rats, prairie dogs, ground squirrels, and woodchucks. Tests on pocket gophers and ground squirrels by these two co-

Blackbirds Return to Same Place Year After Year.

operating branches of the government in California show that chlorine may be used with good results if handled properly. The chemical warfare service used phosgene on rats in Porto Rico with promising results. Some of these war gases will be compared with carbon bisulphide for the killing of woodchucks and other rodents in their burrows.

Entomologists of the department have already worked in co-operation with the War department in testing various gases on insect pests of growing plants and those that infest stored grain, but it has not yet been found advisable to recommend anything to take the place of hydrocyanic acid gas or carbon bisulphide.

The serious disadvantages of many of these new gases is that they are dangerous or very irritating to men, horses, and mules, and require the use of masks and great care in handling.

HOT FORMALDEHYDE IS BEST

Potato Growers Interested in Method Because It Saves Time and Is Effective.

Many Minnesota potato growers are interested in the hot formaldehyde method of treating potato seed because it saves time, is less poisonous than corrosive sublimate, does not corrode metals, and is effective for both scab and rhizoctonia.

The solution is made by mixing two pints of 40 per cent formaldehyde to 50 gallons of water. This is heated to a temperature between 118 degrees F. and 122 degrees F. The potatoes are dipped in the solution for two minutes and then dumped in a pile and covered with a canvas cover or sacks for one hour. They can then be dried or out and planted immediately. Formaldehyde, when used without heating, will not control rhizoctonia and requires one and a half hours' soaking for best results in control of scab.

PLAN FOR GREASING WAGONS

One-Half of Lifting Usually Employed Can Be Eliminated by Working on Each Side.

A wagon can be greased with one half the lifting usually done by removing the burrs from both wheels on one side of the wagon, then greasing them, leaving the wheels hanging about two inches out, go to the opposite side of the wagon, remove both burrs and give the wagon a shove towards the loose wheels.

Words With Many Meanings.

The meaning of a word in Chinese is indicated by the musical tones in which it is uttered, the word may have as many as five different tones, each of which, when sounded, gives the word an entirely different meaning.

Gallant Elevator Operator.

In a downtown building several people were waiting for the elevator. The car was crowded when a lady stepping in attempted to pull friend husband along. The alert operator called, "Just one more, that is all," and pushed the gentleman back. "So you want to separate us," said the lady. "Yes," was the answer; "I would rather separate you this way than the other way."—San Francisco Argonaut.

Keeping Customer's Cigars.

A New York cigar shop has a series of humidifier compartments built into one wall. When a customer buys a box of cigars he is given the only key to one of these compartments, and may keep his cigars in it as long as they last.

Man Really Dependable.

People who are all about and not mentally dependable, who have no fixity of purpose, and are not reliable, are not the men we turn to in emergencies. It is the self-confident man, the man who feels sure of himself, the man who is sure of his philosophy and of his principles, the man of great faith, on whom we depend in supreme crises, when others are driven to the wall.—Exchange

"Your daughter has the worst voice I ever heard. She ought to have it filed."

Time's Changes.

Could used to be a fat little cherub with wings, but now he's a rotten little gold-digger with a pick and spade.

Finch a Musician.

The purple finch, a bird of glistering, deep carmine plumage, is an excellent musician, singing a rich rolling, well-sustained song, says the American Forestry Magazine. This species has a decided fondness for birds of various kinds and may often be seen eating the outkins of the pop-

A Verbal Salad.

The following telegram, writes an Irish reader, was sent by a constable from an outlying district to his sergeant: "Mister just passed at furious rate in direction of town. Killed halfer, containing four gentlemen and two greyhounds, one of which was a clergyman."—London Morning Post.

Yolks + Whites = Eggs

Are You Feeding Enough Whites?

About one out of ten poultry raisers feeds a ration properly balanced for egg production. The common mistake is feeding too much yolk-making material and failing to feed for whites. Grains alone make lots of yolks but few whites.

Purina Chows Balance

Purina Chicken Chowder and Purina Hen Chow, fed in equal parts by weight, balance the whites and yolks by supplying an equal number of each. They make hens lay to the limit of their capacity. Purina Chows save time and trouble—no guess work, no trouble and uncertainty of mixing. Feed both Chows and keep the egg basket full.

McROBERTS DRUG STORE

BUCKEYE

Mr. and Mrs. Thompson Davis entertained several friends to dinner Sunday.

Mrs. W. Boalin, of the Danville pike, visited Mrs. Brorston Locker recently.

Miss Sadie Beasley, of Somerset, is visiting Mrs. T. C. Jenkins and Mr. T. O. Hill.

Mr. and Mrs. Hugh Kirtz and family were in Danville and Harrodsburg Wednesday.

Mr. and Mrs. Dewey Price and sons have been visiting Mr. and Mrs. R. Z. Price near Paint Lick.

Mr. Doty and Miss Walker, of Richmond, were guests Sunday of Mr. and Mrs. T. S. Piratt.

Mr. and Mrs. T. C. Jenkins and son and Mr. T. O. Hill visited Mrs. Walker Bradshaw at Danville first of the week.

Messrs. W. E. Whittaker and R. W. Sanders gave a fish dinner Saturday to about one hundred and fifty of their friends.

The May meeting of the W. M. T. was led by Mrs. Hubert Carter. Subject, "Growing." Slogan, "When Our Sons shall be as Plants Grown up in Their Youth and Our Daughters as Cornerstones Heavily after the Fashion of a Palace." Questions and answers by Messrs. Ethel Ray and Sallie Lou Teater. Talks by Mrs. J. F. Price and Mrs. A. C. Miles. Readings by Mrs. Hiram Ray, Mrs. Robt. Broadus, Mrs. R. W. Sanders, Mrs. Dave Logg. Two new members added. There had been twenty visits made, sixteen trays and \$7.85 in cash sent to the sick. Mrs. J. F. Price will lead the next meeting.

Lambing-off

SO PROFITABLE FARMERS WILL TRY IT AGAIN

A lambing-off demonstration in La Porte County, Ind., proved so successful last year that plans have been made for a similar one this year, says a report received by the United States Department of Agriculture. Last year a 30-acre field was planted to corn and 100 San soy beans. The bean seed for all 6 acres was inoculated. The beans were planted with a soy-bean attachment on the corn planter at the rate of 6 pounds an acre.

When the corn and beans matured, 300 lambs, purchased for \$6.55 a hundred pounds, were turned in to harvest them. The lambs were sold for \$10.25 a hundred pounds, with a total profit of \$866. After the lambs were removed from the field about 30 bushels of corn were picked up and some hogs and other live stock turned in to clean up the remainder.

The growth of beans on the 6 acres planted with inoculated seed was decidedly inferior to the remainder of the field. The demonstration this year will be the third one of this kind on the one farm. The first year only 150 lambs were fed on the demonstration plot, but a profit satisfactory to the owner was made on them.

Mexican Quail

Arrive in Largest Numbers Since 1910

Between January 28th and April 20th, the closing date for the season of entry of Mexican quail were entered at the ports in Texas. This is the largest number since shipments began in 1910. Of these, 9,773 were entered at Brownsville, 15,408 at Laredo; and 12,772 at Eagle Pass. The Bureau of Biological Survey of the United States Department of Agriculture reports that most of these birds were shipped to Kentucky, Maryland, and Pennsylvania, and distributed through the game commissions for propagating purposes.

Quail disease appeared at Laredo about February 23rd, and 500 birds were placed in quarantine, but with this exception few losses occurred from the disease. On the whole, the season has been one of the most successful in recent years.

STORIES TOLD OF WEBSTER

Interesting to Learn That Marvellous Orator Was, After All, Much Like the Ordinary Man.

We hear so much about the lionine appearance and the "lionlike eloquence" of Daniel Webster that it is refreshing to read an anecdote that presents the man in a more human and less imposing light.

Once, says a chronicler of life in old Washington, Webster arrived late at a concert that the famous Jenny Lind was giving and entered just as she was to sing Hail Columbia as an encore. When she sang the first note Webster jumped to his feet, and when she reached the chorus he joined his powerful bass voice with hers. In vain Mrs. Webster tried to drag him back into his seat. He supported the singer in every chorus; and each time when the song was ended he made a deep bow to her and waved his hat. Miss Lind enticed to him in return, and he bowed again. To the delight of the audience they continued the little comedy of etiquette for some time.

One day when Webster was going to make an address his wife brought their little son to hear his father. The orator began in the thunderous tone for which he was famous. "Will any man dare to say—" he demanded and then paused to sweep his breathless audience with a Jewish glance.

But the climax of this awe-inspiring sentence was lost in a gale of laughter, for a wise voice promptly piped from the gallery: "Oh, no, papa, no, no!"—Youth's remonstrance.

TAKES HIGH RANK AS CRITIC

Friend Paid Tribute to James Huneker's Virtues as a Writer—Familiar and Stimulating.

If one were to choose one word that was to sum up all of Huneker's virtues, one would say that he was refreshing, writes Norman T. Byrne in Scribner's. He was an inextinguishable breath of fresh air that drenched the dusty rooms of a criticism grown didactic and lifeless. Life and vigor were typified by his style—a shon of sparkling phrases set in a rhythmic prose that borrowed much from his musical training.

He was well versed in the seven arts, and if his knowledge of some of them was not always profound, his love of them was sincere, and the manner in which he criticized each one in terms of the other is a continuous delight to his reader. His taste, entirely European in character, was rarely at fault. He was taken in by some things that were ephemeral, yet he rarely failed to notice each rising star of genius. His defense was fearless and his article always stimulating. Never didactic, never pedantic, if he was found wanting in philosophical ballast he did possess that sense of esthetic value that the scholar too often lacks and that the critic must have. That was Huneker's forte—his taste and his verve.

Trees' Slow Development.

The slow development of the trunks of certain trees at once calls up images of immobility and eternity. The dragon's blood tree of the Canaries awakens such thoughts. Three famous for its strange looks, its vast size and its antiquity, this dragon's blood tree is equally so for the stationary condition of its growth. In the legend of Tenerife we are told that this singular tree was worshipped by the Guanches, its original inhabitants; and it is related that in the fifteenth century mass was celebrated in the interior of its trunk, a fact even lately attested by the vestiges which were seen of a little altar.

This tree grows so slowly that after a tolerably long interval of time it was not possible to verify any change in its circumference.

Indian's Mystery Carving.

A wonderful bit of wood carving in the museum of the Minnesota Historical society was done by a deaf and dumb Chippewa Indian at White Earth reservation.

Inside a small whisky bottle are the figures of a boy and a dog standing beside a large wheel. Every bit of the construction is of wood, which is brightly colored. How the Indian got all his figures through the narrow neck of the bottle, and how he got his grouping arranged and stuck together is a mystery. Even the neck of the bottle is corked with a big wooden plug on the inside as well as on the outside.

Nobody knows how the Indian got the wood inside the bottle, and the Indian, being dumb, never told.

"Original Package."

In American constitutional law this means the package in which goods are shipped from one state to another. The United States courts held that where an article is imported into one state from another, it does not lose the protection of the interstate commerce clause, while the original package remains unbroken and is the property of the importer. Interpretation of these decisions made it possible to evade state laws by selling direct to the customers in "original packages." The importance of this is in its bearing on the sale of cigarettes and other commodities about which state laws differ.

Guilty Suffer Doubly.

Guilt has always its horrors and sorrows; and to make it yet more painful and detestable, it is doomed often to stand in awe of those to whom nothing could give influence or weight but their power of betraying.—John Jay.

THE PERFECT DAY

She always kept everything perfectly clean
From the cellar up to the top;
For neatness and order she surely was keen
And no one could get her to stop.

Her husband could never find comfort at home,
For fear he would miss up the place
Where his wife with a broom and duster would roam
With a stern sort of look on her face.

She never had time for reading a book
She never had time for a call,
Instead she was scrubbing some corner or nook
Or sweeping the stairs in the hall.

She swept all her beauty and gladness away,
She swept all the joy out of life
Until she became an automaton gray,
A cleaning machine—not a wife.

She scrubbed all the love from the heart of her spouse
Her children were playless and glum,
She had her reward—an immaculate house
Where nobody ever could come.

She swept and she dusted and scrubbed like a slave
Till she swept herself in the tomb,
And the monument now at the head of her grave
Is a duster, a brush and a broom.

Delco-Light will help you keep your house clean.
Ask the man who owns one.

(Everything in a Country Store.)

BUCKEYE, KY.

BRYANTSVILLE

Miss Margaret Croushorn, of Berea College spent the week-end at home.

Dr. Pryor, Veterinarian, Phone 168, Lancaster, Ky.

Mr. J. Hogan Ballard and Mrs. E. H. Ballard were in Stanford Friday on business.

Mr. R. B. Fox was in Wilmore Tuesday to hear the Hon. William Jennings Bryan.

Mrs. B. C. Rose was hostess at a very delightful dinner Sunday for a few of her friends.

Mrs. Russell P. Brown was a guest of Mrs. E. J. Brown, at Stanford for a few days recently.

Mrs. R. L. Hagan, of Lancaster, spent the week-end with her daughter, Mrs. W. T. Arnold.

Mr. and Mrs. C. C. Glass and Miss Frances Glass, of Jessamine, attended the funeral of Mr. W. T. Swope.

Mr. and Mrs. Hugh Tomlinson, of Toledo, Ohio, are the guests of his mother, Mrs. Belle Tomlinson and family.

Mr. J. Hogan Ballard purchased 6 head of registered Aberdeen Angus cattle from Mr. J. B. Woods of Lancaster.

Rev. A. P. Jones, of Wilmore, will fill his regular appointment at the Methodist church Sunday morning and evening.

Mr. and Mrs. R. I. Burton and Mrs. John Chestnut, of Danville, were here last Wednesday to attend the funeral of Mr. W. T. Swope.

Mr. and Mrs. Calvin Hubert and Mr. Earl Wylie went to Madison county Saturday to see Mr. William Wylie, who is very ill.

The Bryantville ball team defeated the Point Leavell base ball squad in a game here Sunday by a score of 10 to 4. One of the features of the game was Mr. Ernest Giesney making a home-run.

Mr. and Mrs. B. A. Dawes, Miss Zillah Dawes and Mr. B. A. Dawes, Jr., Mr. and Mrs. O. M. Moreland, were in Georgetown this week to attend the Commencement exercises of Georgetown College.

Miss Amy Dawes is expected home in a few days from Georgetown College for her summer vacation. She will remain until after the marriage of Miss Nanette Case and Mr. Embry which occurs Saturday in Georgetown. Miss Dawes will play the violin at the wedding.

Miss Jane Bowling is at home from K. C. W. to spend the summer with her parents, Mr. and Mrs. G. A. Bowling. Miss Bowling was one of the graduates at K. C. W. this year. She has as her guests, Misses Louise Gibson, of Pineville and Opal Hendricks, of Flemingsburg.

Mr. and Mrs. M. O. Kennedy spent the week-end with Mr. and Mrs. R. H. Hutchinson in Boyle. Mr. Hutchinson returned from the hospital about two weeks ago, where he underwent quite a serious operation. While he is getting along very nicely he is still confined to his bed.

Mrs. E. H. Ballard and Miss Mayme Lee Ballard were hosts at a delightful course dinner Sunday at one o'clock. The table had for its central decoration a white French basket filled with Dorothy Perkins roses. The place cards were also done in pink and this color was also artistically carried out in the ices, cakes and mints. Covers were laid for ten.

Among the guests from a distance were Miss Marguerite Woolfolk, Messrs. A. L. Fredrick, J. L. Watkins, of Lexington and W. A. Cameron, of Columbus, Ohio.

WOLF TRAIL

Miss Virginia Casey is visiting relatives here.

Master Harrison Lillard Dailey is ill at this writing.

Misses Lillian and Stella Dailey spent Sunday night with Mrs. Robert Sowers.

Mr. and Mrs. Hugh Moberley and daughter visited relatives for the week-end.

Mrs. Clyde Simpson returned home Sunday after a two week's stay with her parents.

Mr. and Mrs. Lowry Speaks and family visited Mr. and Mrs. Andrew Stotts recently.

Mr. and Mrs. Jasper Sebastian were week-end guests of Mr. and Mrs. Wilbert Dailey.

Mr. and Mrs. Elijah McMillan and son were dinner guests Sunday of Prof. and Mrs. Adams.

Mrs. Harvey Teater and Miss Besie Teater spent the day Thursday with Mrs. Hugh Moberley.

Mr. and Mrs. Otis Stotts spent the last week-end in Nicholasville with Mr. and Mrs. S. S. Sebastian.

Mr. and Mrs. Harmon Teater, of Jessamine, were guests Saturday and Sunday of Mr. and Mrs. Allen Teater and Mr. and Mrs. Elbert Teater.

SAVE MONEY WHEN YOUNG ENJOY IT IN AFTER LIFE

Young men who would enter the decline of life in comfortable circumstances should begin to save now.

The approved modern method of saving is a savings account in the home bank.

This bank invites young men and young women to join its family of savings depositors.

One dollar opens a savings account, and any sum may be deposited thereafter.

THE NATIONAL BANK OF LANCASTER.

S. C. DENNY, Cashier.

Capital \$50,000. Surplus \$50,000. Honor Roll Bank

Because you get all the richness of flavor; all the nutritious qualities of the wheat. Every element for the making of good flour is retained in American Queen Flour. That's why it bakes more loaves of better bread than any flour we know of. Hundreds of housewives are using this flour today because of its certainty to always produce only the best results.

Order a sack today—if it does not please you better than the flour you are now using, purchase price will be refunded upon return of partially used package.

Studebaker

PRECISION plays an important part in the manufacture of the Special-Six. It is largely responsible for the dependable service that has singled out the Special-Six as an incomparable value.

Six hundred and eighty inspectors safeguard precision in the Studebaker factories. They literally inspect every part that goes into every car—and every operation on every part. Before cars are passed for delivery 9,500 inspections are made.

In the Special-Six there are 1,120 mechanical operations to the accuracy of one-thousandth of an inch, 360 to one-half-thousandth.

As to the car's performance, a brief experience will reveal its superiority far more convincingly than we could tell it.

Studebaker cars make friends quickly, because they give most for the money. And they invariably keep these friends, because of the universal satisfaction they give in fine performance, economy and service.

Cardwell-Willis Motor Co
Danville, Ky.

THIS IS A STUDEBAKER YEAR

A Digest of The Registration Law

Dates of Registration—July 10th, and 11th, 1922.

Time of Registration—From 6 A. M. to 9 P. M. on each of these days.

Where Registration is to be held—At each regular voting precinct in the State of Kentucky.

Persons entitled to Register—All legal voters both men and women, and all persons who will become 21 years of age on or before the following November.

Registration Officers—Two judges, and a sheriff and a clerk in each precinct. The two judges to be of opposite political parties; a like difference between the clerk and sheriff.

Notice to be given—County Board of Election Commissioners to give notice of appointment of registration officers to the sheriff of county.

Duty of Sheriff—The Sheriff shall within ten days next after said appointment, give each officer of registration written notice of his appointment. It is the duty of the county Sheriff to furnish a suitable place in each precinct for the registration.

Clerk of Registration—Notice—Ten days before registration, the Clerk of Registration shall post notices in at least six conspicuous places in the precinct, stating the time and place of the Registration.

Return the Registration Books to County Clerk—It is the duty of the officers of registration to return the registration books to the County Clerk not later than three days after holding the registration.

Duties of County Clerk—The County Clerk shall make exact copies of all the Registration books, and preserve both the originals and copies in his office. He shall also keep a book showing the name of voters who have changed their voting precincts, and to what place.

The Original Registration Books can only be taken from the Clerk's office for use in any primary, special or general election, or for use in registration.

Purging Registration Books—At the request of either of the dominant parties, the County Board of Election Commissioners shall, not later than October 1st, appoint two officers for any precinct to purge the books of that precinct and who shall meet on Tuesday after the first Monday in October. If the two purging officers disagree, appeal may be taken in the Circuit Court.

The Registration Officers to be appointed by the regular Board of Election Commissioners of each county in the same manner as regular election officers are appointed and not later than the 20th. day of June, 1922 and annually thereafter.

Registration is for the purpose of purifying elections in Kentucky. The greatest privilege enjoyed by citizens is the right to vote. You can-

not vote unless you register on July 10th. or 11th.

Death From Snake Bites Rare in U. S. Figures Show

Although the average mortality from American venomous snakes is a little more than 10 per cent of the persons bitten, death from snake bites is quite rare, according to the Biological Survey of the United States Department of Agriculture, because relatively few persons encounter or are bitten by the dangerous species.

The most venomous of our native snakes live in lonely, little-settled districts, often on stony or swampy land that cannot be cultivated. Usually they disappear at the approach of man, and while they may strike if provoked, the popular belief in respect to the distance they can strike is erroneous. Three-fourths of their own length is about the greatest distance possible. If the legs are well protected when one is going into deep woods or places known to be infested by rattlers or other poisonous snakes, there is slight chance of being bitten.

As the food of snakes consists of living prey, they cannot be killed by poisoned baits. The only method thus far devised to kill them seems to be clubbing or shooting. This is best done in early spring, when they are still sluggish after the winter hibernation. Allowing hogs free run of infested land may reduce the number of snakes. However, the popular idea that hogs are immune to snake bite is probably based on the impregnability by the venomous fangs of their thick skin and fat layer rather than on actual immunity of these animals.

The varieties most commonly found in this country are the Elapidae, or Rattlesnakes, and the Crotalidae, or "pit vipers," which include rattlesnakes, cotton-mouth water moccasins, and copper heads.

TEATERSVILLE

The farmers are rejoicing over the fine tobacco season.

Mrs. Otto Simpson and daughter were visitors in Lexington recently.

Mr. and Mrs. Clarence Humphrey were week-end guests of his parents.

Mr. and Mrs. George Rogers were visitors of Mr. and Mrs. Bill Naylor Sunday.

Mr. and Mrs. Sam Cotton were guests of Mr. and Mrs. Kemp Walker and daughters.

Mr. and Mrs. Floyd Humphrey were guests of Mr. and Mrs. Rayford Sebastian Thursday.

Mrs. Aron Simpson and children were guests of Mr. and Mrs. Bill May and family Sunday.

Mr. and Mrs. M. Simpson and chil-

dren and Mrs. Manerva East and little grandson, were guests of Mr. and Mrs. Bill May Sunday.

Mr. and Mrs. Aron Simpson entertained a number of friends Wednesday, May 31st. in honor of Mr. Simpson's birthday. Twenty-eight were present and an enjoyable day was spent. They left wishing him many more happy birthdays.

When The Editor Thinks

The editor sits in his easy chair And thinks with his thought machine.

"There's my pen to polish—my axe to grind— My old typewriter to clean.

I must cook that squash that my neighbor Biggs Brought in from the garden patch.

I must roast that fellow who still forgets His name on a check to scratch.

I must write a letter to Reverend Dox And tell him his sermon's cold.

Will be brought to life with my printer's ink For fifty dollars in gold.

I must tell Tom Trott I will trade a year Of my paper for winter coal.

I must print as live news the whole-sale price Of a fresh-water Baptist soul."

Oh, life is sweet for the news-print man As he pounds at his old machine.

Though money is dirty and times are hard, He keeps right tolerably clean.

It is better to be a poor talker than to be a good one and overdo it.

The man of great wealth is to be pitied. He is never sure of his friends.

Don't rock the boat unless you know how to swim. The other fellow doesn't count.

The world is full of good people, but many are unable to tell us from the common herd.

Borrowing trouble is the easiest thing in the world. There are so many who want to get rid of it.

It's rather disconcerting to a child to tell the truth and then have its parents try to make it out a liar.

Soon, now, the college graduate will be imparting to us the wisdom he failed to learn in his school days.

Some people are never convinced until they have made the same error twice, and then they are convinced that the other fellow is wrong.

Some men are born great, some achieve greatness, and others have it thrust upon them. But most people just imagine they are great.

Training School FOR SUNDAY SCHOOL WORKERS

Real Sunday School Workers are always feeling the need of knowing how to do better work. To meet this need the Kentucky Sunday School Association has arranged for a "Leadership Training School" to be held at Berea, Ky., June 29th. to July 9th. Prof. M. A. Honins, Associate Superintendent of the Department of Education of the International Sunday School Association, who has delighted so many people in his former visits to Kentucky, will be one of the leading teachers.

Miss Mary E. Abernethy of Gray, Ind., where 3,000 children receive instruction in the Bible on week days, will be one of the instructors, and will tell how similar work can be done in the towns of Kentucky.

Other instructors will be: Rev. and Mrs. N. K. McGowan of the Christian Bible School Association, Rev. Jas. F. Price, Marion, Ky., Rev. Geo. A. Joplin, Mrs. Geo. A. Joplin and Miss Mary Virginia Howard, of the Kentucky Sunday School Association. The courses of study will be:

Constructive Bible Studies, Principles of Week Day Religious Instruction, Principles and Methods of Association Work, Principles of Teaching, Principles of Christian Living, Psychology, Problems of Sunday School Management, Leaders of Youth: The Pupil, Organization, Lesson Material, Story Telling, Organization and Administration: Beginners, Primary and Juniors.

It is not going to be all hard work at this school. There are to be many forms of recreation. There will be delightful vesper services out under the beautiful trees. There will be opportunities for nice long friendly talks with old and new friends. There will be games, hikes, and a hundred ways of good times. The cost of attending this school, in addition to railroad fare, will be board \$12.50 and tuition \$2.50.

Send in your registration now to Rev. Geo. A. Joplin, 712 Louisville Trust Bldg., Louisville, Ky.

A few days ago we were all talking about the Einstein theory. But that was a few days ago.

If everything were taken out of politics except the politicians, there would still be too much left.

LOYD

Mr. and Mrs. Squire T. Whittaker, were in Lancaster Friday.

Little Miss Charlotte A. Ray spent Monday morning with Mrs. Squire T. Whittaker.

Mr. and Mrs. Jesse Preston, of Marcellus, were with Mr. and Mrs. J. D. Ray recently.

Mr. and Mrs. Tom Doolin and Mrs. J. D. Ray spent Sunday with Mr. and Mrs. Fred Snyder.

Mr. and Mrs. William Ray and baby visited Mr. and Mrs. S. N. Sanders and on Sunday were with Mrs. Susan Broadbush.

MARKSBURY

Ryle Isom bought a young milk cow for \$30.00.

Messlames Robt. Clark and Nora Pruitt were shoppers in Danville last Thursday.

Messlames Tom Broadbush and Taylor Huffman left last week for a visit to relatives in Indiana.

Mr. Cullon Isom, a member of the Navy is expected home shortly on a furlough. He joined the navy about four years ago.

Mr. Byrnes, of Danville, has completed the varnishing of the church pews. As far as we know the work has proven entirely satisfactory.

The ladies of the church met and had an all-day meeting last Thursday for the purpose of cleaning the meeting house. In the afternoon the Ladies Working Society held its regular business session. A good lunch was served.

Mr. and Mrs. Kuhnlien and son, Robt., Mr. and Mrs. Lee Kemp, of K. C. arrived Tuesday for a visit to Mr. and Mrs. R. S. Clark, Mr. and Mrs. Kemper will remain only a few days before going to Cincinnati to visit relatives.

The rodent tribe have become so numerous and destructive here that it is almost unbelievable until you see the bushels of corn and the dozens of chicks dead around the coop that they can destroy. Mrs. A. J. Rice lost about 40 chicks in a night, and Mrs. Ryle Isom 75. These are just two instances but the complaint of what these pests destroy is general. They also ate a family of ten little rabbits, which had been sold for a fancy price belonging to Mr. Eugene Thompson.

CARTERSVILLE

J. D. Carter sold to Walter Center two cows, price unknown.

Protracted meeting began at the Methodist church Saturday night.

Mr. and Mrs. John Turner and children were the guests of her mother, Mrs. J. T. Allen Sunday.

Miss Cora Roop, Misses Myrtle and Cora Carter have returned home after spending two weeks at Wilmore.

Mr. and Mrs. A. R. Carter had for their dinner guests Sunday, Rev. M. L. McGraw and Rev. T. W. Beeler.

The Baptist Sunday School is progressing nicely. They have organized a singing choir and certainly can make some music.

Mr. and Mrs. F. L. Pennington and children, Mrs. Wylie and daughter, Lucy, of Berea were guests of Mr. and Mrs. A. S. Roop Sunday.

Mr. and Mrs. D. M. Carter and children, of Lancaster, motored to Cartersville Sunday evening and were the pleasant guests of Mr. and Mrs. A. R. Carter.

Rev. Beeler and Misses Cora Roop and Viola Beeler held a street service at Lancaster Saturday afternoon. A large crowd attended and several asked for prayer.

They Finally Went Crazy About Their Editor

Here's a story published in an exchange which shows how greatly the people of a community in Kansas appreciated their editor: "In appreciation of the work of a Kansas editor for their community a bunch of citizens recently presented him with a bouquet. On the same occasion a quartet from a local church sang a few sweet songs and a minister made a little talk. After the minister's talk six husky men carried the popular editor from the house and placed him tenderly in a model 1921 plumed sedan, and the whole town formed in parade behind the editor's expensive car. After the parade the appreciative crowd returned to their homes serene in the thought of having provided one bright day in the life of their local news purveyor, even if they did wait until he was dead to do it."—The Fourth Estate.

Tax Free In Kentucky.

Backed By Sixty Thousand
BURLEY TOBACCO GROWERS
\$700,000

District Warehousing Corporations
8% Cumulative Serial Preferred Stock
Principal and Dividends Unconditionally Guaranteed by
The Burley Tobacco Growers Co-operative Association
Incorporated.

The purpose of this issue of Preferred Stock is the providing of funds for the acquisition, by the various District Warehousing Corporations, of now independently owned warehouses located in their several districts.

This Preferred Stock is divided into five classes, each class containing an equal amount. This stock must be retired by the District Warehousing Corporations at par, with accumulated dividends, as follows:

Class "A" stock on or before June 30th, 1923
Class "B" stock on or before June 30th, 1924
Class "C" stock on or before June 30th, 1925
Class "D" stock on or before June 30th, 1926
Class "E" stock on or before June 30th, 1927

This Preferred Stock is unconditionally guaranteed, both as to principal and dividends, by the Burley Tobacco Growers Co-operative Association through contracts duly executed between the Association and each of the District Warehousing Corporations.

LOST!

250 Pimples, 736 Blackheads and 3 Boils!

No reward is offered, because they are lost forever! No question will be asked, except one question, "How did you lose them?" There is but one answer, "I cut out new fast treatments and guesswork; I used one of the most powerful blood-purifiers, blood-purifiers and flesh-builders known, and that is S. S. S. Now my face is pinkish, my skin clear as a rose, my cheeks are filled out and my rheumatism, too, is gone!" This will be your experience, too, if you try S. S. S. It is guaranteed to be purely vegetable in all its remarkably effective medicinal ingredients. S. S. S. means a new history for you from now on! S. S. S. is sold at all drug stores in two sizes. The larger size is the more economical.

"S. S. S. is for sale at McRoberts Drug Store."

Daffodils, Miss Pattie And School

(By Lennie Holton Land)

Spring had come again to the old brown earth. Birds were twittering in the tree tops; grass clothed the hills and valleys with verdant green; trees were bursting forth in leaf and blossom again. The world was a good place to live in.

Miss Pattie Wilde was glad to be alive even though she did have to teach school for her living—and at Clover Corner too. You could tell by the glad note in her voice that she wasn't sorry to be alive. Her blue eyes beamed life thru rosy glasses even though Clover Corner was a dull, uninteresting place to be. It wasn't so slow if you happened to be the teacher of the district school and had from forty to seventy-five lively boys and girls to supervise.

As Miss Pattie tripped thru the old-fashioned yard to the farmhouse that so hospitably sheltered her she was filled with joy at the beauties about her. She had no thought of resentment for the arduous tasks she had met that day in the school room. "Isn't it good to be alive on such a lovely Spring day?" she said to Mr. Ray as she entered the house.

"I guess it is," was the response she received.

"How has school treated the little teacher today?" inquired merrily Mrs. Ray as the girl entered her spacious room.

"Oh, there have been trials, but it has been a very pleasant day," Pattie told her. "Frank Bryant was quite a trial this morning, but he did bring me the loveliest bouquet of daffodils."

"Aunt Martha, Clover Corner

school would be such a delightful place to teach if it were not for the one thing it lacks so woefully," the girl told the older woman as they went out into the lovely old yard again.

"What is it that is so woefully lacking?" the old lady asked kindly.

"Oh, there are so few who have any interest in the school work," she answered. "I do wish the parents would come to visit us and talk with me and each other about the many things which could be done to make the school count for more in the lives of the people."

"Of course the new building will be ready before time for the next school term to begin; but it will be impossible for the teachers and pupils to make the most of the beautiful building and the excellent equipment the Educational Board has given the district, unless the parents become educated and interested in what they can do to help out and make the school count in their lives as well as the lives of the children."

"That is what I tell them," the older woman said.

"I thought of the conditions as I came from the school house this afternoon. Nature seems to be waking from her slumbers. Her delightful beauties are being resurrected as it were, and I have been wondering why were the few who are interested—might not set some force to work to 'resurrect' the others and set them all to shining just as those golden juncos along that path there shine this afternoon."

"Have you made any plans?" sympathetically questioned Aunt Martha.

"Well, it seems the style to organize so I thought perhaps we might organize a club of those who want

to help and do our work in that way."

"Well, you'll have my help in whatever you want to do about it so go ahead and start the ball rolling."

So it came about that the Clover Corner Improvement Club was organized and started on its mission of resurrection the following Friday afternoon. Not very many were there to enroll at the first meeting, but every one had a task assigned them. Every woman was elected to some office except one and she was made publicity manager.

Listen and perhaps you will learn how well Miss Pattie and Aunt Martha planned when they thought out the scheme to get the people interested.

Dickens' Gorgeous Attire

Among English authors, says "Teacher" in the Daily Express, London, England, Dickens was probably the most gorgeous dresser. He used to go down to the office of Household Affairs when editor, wearing a bright green waistcoat and a vivid scarlet tie, actually concealed by a sky-blue coat in red cuffs.

Cruelty in Trapping Animals

One-fourth of the animals caught by steel traps are worthless. Fifteen per cent escape by chewing off a leg. Many are eaten by other animals and all suffer lingering torture. The American Humane society offers prizes aggregating \$300 for the best essays acquainting the public with this cruelty and showing how it may be remedied. —Scientific American

Ancient Shaving Implement

According to Herodotus the Egyptians shaved continually and only let the hair and beard grow when they were in mourning. The barber of the ancient Egyptians was known as the baq. He employed various instruments. A razor sometimes in the shape of a small, short hatchet with a recurved handle and other instruments shaped like a knife were most generally used.

EXCURSION CINCINNATI, OHIO and return via

Sunday, June 4th, 1922

Special train will leave Lancaster 5:39 A. M., returning will leave Fourth St. Station, Cincinnati at 6:30 P. M. Central Standard Time, (7:30 P. M. City Time.)

For further information consult Local Ticket Agent. (5-11-21.)

HESSIAN FLY HARMS WINTER WHEAT CROP

Infestation Regarded as Worst in Many Years.

Where Parasite Is Present in Large Numbers Crop Should Be Plowed Under, as It Will Not Amount to Anything.

A prevalence of Hessian fly is reported in winter wheat sections and, judging from samples received from many areas, the infestation is the worst for several years.

Favorable climatic conditions, coupled with an absence of a parasite that ordinarily destroys the larvae of the Hessian fly and too early planting of the wheat last fall is the cause of the outbreak. Where wheat was sown early it needs to be carefully examined for traces of the fly.

Signs of the infestation may be detected by examining the wheat field

Hessian Fly and Wheat—Insert Shows Adult Female, Gravidly Enlarged.

If it has stunted plants upon which small brown seedlike bodies are attached to the stalks, the fly is probably present in the pupal or "hatched" stage. These brown seedlike bodies can be found below the surface of the ground between the leaf sheath and the stem of the plant. Within a few weeks small gnathlike flies hatch out, laying a second crop of eggs which result in the spring brood of flies.

The Hessian fly has four stages in its life. The egg, the maggot, the pupa and the fly. It is the maggot, a white, fleshy worm, about one-fifth of an inch long, that does the damage. If the plant survives the first attack there is a chance of considerable damage resulting from the second crop which eat the stems and cause the grain to lodge and lessens the grain production.

Wheat that is badly infested with the Hessian fly ought to be plowed under, as it will not amount to anything as a crop and will only serve as a hatching ground for further crops. Often some parts of the yield only are affected and the farmer may use his judgment as to turning under only a part of the field.

Where volunteer seedlings of last year's crop are detected containing Hessian fly they should be plowed under at once. If there are any suspicious signs of the presence of the fly in the fields the entomologist urges that samples be sent to the state entomologist for examination.

PLANS TO CONTROL EROSION

Gullies Cause of Considerable Loss by Washing Away Fertile Soil—Ways to Reclaim.

The gully is one of the things that keep rain from being an unalloyed blessing to the farmer. That it is an inconvenience and causes damage is obvious, but in Farmers' Bulletin 1234, "Gullies—How to Control and Reclaim Them," by C. E. Ranss, just issued by the United States Department of Agriculture, it is shown that loss is produced in 10 different ways, and that the most important is the washing away of fertile soil that can never be returned.

After discussing the different types of gullies and their causes, the bulletin, which is illustrated with photographs and drawings, goes on to describe in detail methods of controlling erosion, such as plowing in and seeding, planting trees, and building dams of various kinds. By following the suggestions and plans farmers should be able to prevent further erosion in most cases and to reclaim badly gullied land. In some cases expensive structures such as concrete walls are needed, but usually inexpensive materials—brush, straw and stones—are recommended.

The bulletin may be obtained free of charge by addressing the department at Washington, D. C.

PLAN TO ERADICATE SORREL

About Simplest Way is to Spray With Solution of Copperas—Quicklime Also Kills.

About the simplest way of killing sorrel, if you do not want to cultivate the land, is to spray it with a solution of copperas (sulphate of iron), made by dissolving two pounds of copperas in each gallon of water. Repeat the spraying as often as the sorrel begins to make growth. You can also kill this weed by making quicklime in water and sprinkling the water and lime over the plants, repeating as often as necessary.

Hail Insurance Rates Reduced on Tobacco

With the recent reductions of hail storm insurance rates on

growing tobacco, in the face of the enormous losses to growers within the last four or five years, every grower can afford to protect himself to the limit and, with safety, go into the business of producing a crop that requires so much money, time and labor, as does tobacco, that should be insured against loss by hail storms.

Now that so many growers have gone into an organization for a more economical, business-like way of handling their crops, and the insurance companies have so lowered rates on hail insurance, there is no reason in the world for any grower to neglect the protection of his crop by ample insurance.

Better see your insurance agent right away and have him protect your crop, which is likely to be destroyed any day by a hail storm. Policies become effective noon, July 10th.

JUDSON

(Delayed)

Mr. Robert Simpson continues ill. Mr. and Mrs. Vernard Hurt spent Sunday with Mrs. Mary Black.

Mr. and Mrs. L. L. Matthew spent Sunday with Mr. and Mrs. Wm. Simpson.

Mr. and Mrs. Tommie Murphy were guests Saturday night of Mr. and Mrs. Wm. Simpson.

Mr. and Mrs. Austin Black were guests Sunday of Mr. and Mrs. Tom Pollard.

Mrs. Patsy Simpson spent Tuesday night with her daughter, Mrs. Cronley Hardwick.

Mrs. Raymond Churchill and daughter spent Tuesday with Mr. and Mrs. Henry Sebastian.

Mr. C. R. Naylor delivered some hogs Saturday to Mr. Kirby Teater at 10c per pound.

Mr. and Mrs. Bailey Ray delightedly entertained several of their friends Sunday at an elegant dinner.

Mrs. Wm. Black, Mr. and Mrs. Willie Ray, Mrs. Nannie Ray and daughter were in Danville shopping Wednesday.

Mr. and Mrs. Wm. Black Mr. and

Mrs. C. R. Naylor, Mr. and Mrs. Willie Ray, Mr. Clay Simpson and Miss Virginia Ray were guests Monday of Mr. and Mrs. Hugh Simpson of the Stanford road.

Mr. and Mrs. James Foster delightfully entertained about thirty guests Sunday in honor of Mrs. Foster's 60th birthday anniversary. Ices and cakes were served and an enjoyable day was spent by all present.

Pressure Produced Diamonds.

In 1905 Sir Andrew Noble exploded corundum in closed steel cylinders and calculated that he had attained a temperature of over 5,000 degrees Centigrade and a pressure of 50 tons to the square inch. Some of the carbon produced under these conditions was examined by Sir William Crookes, who found it contained minute diamonds.

The Rattlesnake.

One of Bossworth's young sprouts was coming home about 12 o'clock the other night on the south road, and just as he got even with the graveyard the engine went dead. But he said he got so scared when he saw where he was that he shook the car so badly that the durned old driver thought the motor was running and came clear to town before it discovered its mistake.—Science and Invention.

Public Sale

OF THE

Cornishville Flouring Mill

ON

Thursday, June 15th, '22

AT 1:30 P. M.

The demand of other matters on Mr. Horn's time prevents him from giving the attention necessary to the mill and a dissolution sale of the firm's property has been agreed on.

THE MILL

The Cornishville Mill is of 60 barrel capacity and possesses an almost new building and machinery. Installation of the machinery is perfect and runs without a tremor of the building.

There are four stands of rolls of the Robinson Manufacturing Co. type. The auxiliary machinery is complete. The building is in perfect order and is oak framed and braced. The mill building proper will store some 3,500 bushels of wheat and a granary, 24x28 feet, across the driveway is of good storage capacity and is rat-proof.

WATER DAM FOR POWER

The dam is a well constructed and tight concrete dam over 100 feet long. The fore bay is also of concrete. The mill property extends on both banks of the Chaplin river and full river rights are possessed. Not one dollar is necessary to spend on this property for repairs or improvements.

TERRITORY SERVED

This mill site is very old and has enjoyed at all times the distinction of being a good mill. At present we have a heavy trade in custom grinding and serve a territory of over 10 square miles.

Enough wheat is easily purchased in this territory and is delivered to the mill.

If the purchaser needs the service of an expert miller there is a good local man available on reasonable terms.

RESIDENCE HOUSE AND LOT

There will also be in the sale a good four room house with hall and all necessary outbuildings, situated on prominent corner of the town, owned by Kyle Ruby.

CORNISHVILLE

To those unacquainted with our town, we wish to add a word as to the merits and advantages of this place. Here you will find a refined and law-abiding community of over 200 people in the immediate town and a very thickly settled territory tributary to us. We have two splendid churches, a thriving bank able and willing to serve all proper enterprises, a model drug store and post-office combined, three general stores, one grocery and cream station, an incorporated electric light power plant, two blacksmith shops and two garages. There is one of the best two-room schools in the county located here. There are Masonic, Woodmen, Macabees and Royal Neighbors lodges. Four hard macadam turnpikes converge in the limits of the town in 300 feet of the mill. Cornishville is the largest country produce center of the county. If you are looking for a good business and a good town, get this property. There are two splendid physicians in this place.

TERMS:—One-third cash and balance in 1, 2 and 3 years.

Horn & Cooksey, Props

CORNISHVILLE, KY.

A Good Reputation plus a Better Price—\$10.90

THE new low mark of \$10.90 for the 30 x 3½ size "Usco" created something of a sensation. Naturally, the first impulsive remark was on the "wonderful price."

Even more to the point are the comments of today.

People are getting more used to the \$10.90 price—but the "Usco" value is still a cause for wonder.

With thousands of \$10.90 "Usco's" running today, every locality has had a chance to check up on the surprising tire value.

Let all these "Usco" Tires now serving their owners so well remind you of this—

Whatever the price of "Usco," it has got to deliver big value because it has always done so.

An artist's model, reputed to possess the most beautiful figure on the American continent, attempted suicide recently because she had been reduced to poverty and the future held nothing inviting for her.

The greatest men and women of the nation have marveled over the perfection of her figure. Foreign critics have stood entranced before her likeness as revealed by artists and sculptors. Other women have envied her that with which nature has so richly endowed her and denied them.

Yet in the midst of prosperity she is overtaken by adversity. And adversity does not attract friends or honorable employment.

Out of sight, out of mind.
Out of mind, out of pocket.
Out of pocket, oblivion.

Be lenient with the young man who has to walk gingerly in order to avoid tripping over his own hair.

The baseball season is on in full swing, and it is generally conceded that an enthusiast can extract greater enjoyment from a whoop or a cheer by first thrusting his fingers upward through his flowing locks.

Then again, the hair covers the brains in the head, and some brains are so delicate they require a considerable amount of protection to prevent rapid decay.

Be generous to the feeble-minded. It is not their fault.

Foreigners of distinction come to this country, criticize us, laugh at our "provincialism," and go home envying our progressive spirit. The harsh things said of us are many, and biting, yet we forgive them in those who have eaten of our salt.

A former American diplomat

gave some good sound advice to certain people in the Balkans and a French court sentenced him to twenty years imprisonment—during his absence.

The sentence will never be carried out—for two reasons. First, the French government will never have the nerve to pursue the farce to an end. Second, the American fist is still hard and there is plenty of power behind it.

Europe is sick—very sick—and there appears to be but one physician capable of restoring her to health. That physician is Uncle Sam.

But when a physician gives medicine to a patient he requires that his instructions be faithfully observed, for without such observance there can be no cure.

It is possible that America owes a duty to the world, the duty of aiding in the readjustment of stricken Europe.

But the people of this country will approve the extension of such aid only upon the assurance that it will be employed for the collective good of all of the people and not be diverted to the maintenance of great armies or the enrichment of favored individuals. "No adherence, no dough," says Dr. Sam.

Expensive Economy

The average hard surfaced road as at present constructed in this country is not adequate to withstand the weight of the heavily loaded trucks that continually pass over them.

The result is within a few months a new road begins to go to pieces and constant repairs are required to keep it in any kind of condition. This, in the course of time, leads to greater expense than would have been the case had the road been properly constructed in the beginning.

The time is fast approaching when the double track road will become a necessity, with one side extremely heavy in construction for motor truck traffic, and the other of a lighter roadbed for the exclusive use of automobiles.

In the meantime we will continue to dodge holes and bump the bumps and preserve our tempers as best we can.

A moderate improvement is better than none at all, but expensive economy never pays in the long run.

Buffaloed

Statesmen of the old world are worrying themselves gray over what to do with Russia. Lenin and Trotsky are firmly

settled in the soviet saddle and are engaged in the pleasing pastime of pulling the string while the old world dances to their music. In the meantime the rank and file of the Russian people are dying of starvation. Russia demands that the rest of the world supply the finances for her reconstruction. This will probably be done, because the premiers and bankers of Europe dare not definitely refuse.

The spread of bolshevism is what they fear, and the spectre is so terrifying as to practically obscure every other consideration.

In plain words, soviet Russia has the old world buffaloed to a frazzle.

Down With

The Speeder

With summer upon us again and automobile traffic on the increase the spotlight of pitiless publicity should be turned with full force upon the speed maniac—the most dangerous of all irresponsible animals.

Fortunately, they are not so numerous as they were. Heavy fines and jail sentences have checked a portion of this ruthless terror.

But even one is too many to be left at large.

Not since the early days of Indian butcheries has there been such a menace to public safety.

Time and superior force have eliminated the Indian as a menace.

The speeder's turn comes next, and action should be swift and with no greater mercy than he shows to his helpless victims.

Why, Doctors, Why?

Fifty years ago a man was considered old at 60. Today he is only in the prime of life, with many years of usefulness yet ahead of him.

In Poland the "oldest inhabitant" is still farming at the age of 132, and he isn't worrying about the approach of death.

We appear to be a generation of people enjoying longer lives than our forefathers, a fact which the average man is unable to explain.

But perhaps our local physicians can throw some light upon a subject of such vital interest to us all.

Speak up and be heard.

Although a powerful reconstructive tonic, Tanlac contains no harmful ingredients, minerals or opiates, which are so often found in other medicines. It can therefore be taken by delicate children with splendid results.

(11.) Stormer Drug Store.

Summary of Bonus Bill

The McCumber Bonus Bill, approved by the Senate Finance Committee, is summarized as follows:

Cost \$3,800,000,000 at the end of 20 years (McCumber's estimate.)

Financing: No method provided. Rate: Dollar a day for home service and \$1.25 a day for foreign service.

Limit: Five hundred dollars for home service and \$625 for foreign service.

Cash provision: Limited to veterans getting \$50 total. Certificate provision: Amounts to three times computed cash due each man, to be paid at end of 20 year period.

Home or farm aid provision: Veteran can obtain from Secretary of Interior full cash in 1933 if spent on purchase of home or farm or debt so contracted. Cash amounts increases to 140 per cent in 1928 if spent in this manner.

Vocational training provision: Veteran is paid \$1.75 per day while under vocational training provided by government, total amount not to exceed 140 per cent of cash value of his bonus.

Loan provision: National banks authorized to loan 50 per cent of full value of bonus certificate prior to January 1st, 1926, and Postoffice Department authorized to make same loans thereafter.

Funds Available

To Build 46,000 Miles of Good Roads.

The \$350,000,000 appropriated by Congress as Federal aid in conjunction with State funds will result in the construction of about 46,000 miles of road, says the Bureau of Agriculture. This mileage would parallel the railroad from New York to San Francisco nearly 15 times, or if divided equally among the States would give nearly 1,000 miles to each State.

The status of road building on April 30th, was as follows: In projects entirely complete a total of 10,375 miles; under construction, 13,940 miles in projects, averaging 62 per cent complete. A considerable part of the latter mileage is actually complete and in service. In addition, funds have been allotted to 7,511 miles, much of which will come under construction during the present season. Besides this there is still available for new projects \$60,148,000, which on the same basis as previous Federal aid construction will result in the construction of 8,200 miles of highway. In March the fund available for new projects was taken up at the rate of \$12,000,000 a month and at the rate of \$5,700,000 in April.

Stanley Goes After Daugherty Hard

Kentucky Senator Says Harding Is Shielding Official Who Cannot Shield Self

Washington—President Harding was charged recently in the Senate by Senator Stanley Democrat, of Kentucky, with attempting to stifle, if not muzzle the press, to prevent publication of attacks on Attorney General Daugherty and with making a desperate attempt to shield a man who dares not shield himself and to protect a man who does not protect himself. In the course of his remarks, Stanley assailed Daugherty as a nefarious and crooked pardon broker, who makes it his business to deceive the president that men may plunder in time of peace and rob the federal government in time of war.

Resolutions of Respect

In memory of brother Jesse Dunn, who died May 16, 1922.

Once again death hath summoned a Brother Odd Fellow, and the golden gateway to the Eternal City has opened to welcome him to his home.

He has completed his work in the ministering to the wants of the afflicted, in shedding light into darkened souls and in bringing joy into the places of misery, and as his reward has received the plaudit "well done" from the Supreme Master.

And Whereas, the all-wise and merciful Master of the Universe has called our beloved and respected Brother home, and he having been a true and faithful member of our beloved Order, therefore be it

Resolved, That Franklin Lodge No. 7, I. O. O. F. of Lancaster, Ky., in testimony of her loss, drap its Charter in mourning for thirty days and that we tender to the family of our deceased brother our sincere condolence in their deep affliction and that a copy of these resolutions be sent to the family.

W. M. Zanone,
T. M. Arnold,
Wm. Cox, Committee.

Card of Thanks

We desire to express our sincere appreciation and gratitude to those of our neighbors and friends, who were so kind to us in our recent bereavement, in the sad death of our dear son.

R. K. Swope and family.

Within Reason

Just as the guards were leading his client away, the lawyer stopped and shook hands sadly with the recent defendant.

"I'm sorry I couldn't do more for you, old man," he apologized. "Don't mention it, sir," replied the prisoner. "Ain't five years enough?"—American Legion Weekly.

There is no such thing as luck to the fellow who is always unlucky.

Congress, however, is composed of so many light weights that we hardly realize that we have it on our hands.

Pity literally oozes from the countenances of some people, but it never extends as far as the pocketbook.

Will H. Hays is preparing for a slump in personal popularity. He promises clean pictures in filmland.

"I would not take \$1,000 for what that wonderful Tanlac medicine has done for me," said Mrs. Mattie Lutes, of Lexington, Ky. Sold by Stormer Drug Store.

GURREY & GULLEY

Baptist Church News

The Juniors held a very enjoyable picnic at the Club House Tuesday. Four car loads of young people and a few chaperones for good measure composed the picnic party. Beautiful weather (after it rained,) good company, good eats, and good swimming were the necessary elements to make a good time possible, and all enjoyed it to the full.

Mr. John Montgomery, of the young men's Bible Class, and Miss Addie Mae Scott, called at the pastor's home on Wednesday morning and after the necessary words were said they were the recipients of hearty congratulations as Mr. and Mrs. Montgomery. Upon their return from a short trip they will reside near Lancaster.

The play given by the Senior Class of Herva College at the School auditorium Monday evening, under the auspices of the B. Y. P. U. was attended by a large audience. The young people are to be commended for their enterprise in securing this high class play. The music was furnished by Mrs. Walter Cox and Mr. Crumlin, and was much enjoyed.

The Communion service was postponed until next Sunday morning. It is hoped that there will be a large attendance at that time.

Our Sunday School has suffered for lack of Sunday School teachers the last three Sundays. We sincerely hope that all the teachers and scholars will be loyal in their attendance during the summer months when counter attractions would lead us elsewhere.

The pastor will preach morning and evening next Sunday. Morning topic—"The Glorious Gospel." Evening—"An Unanswered Question."

At the present rate of Tanlac sales, it is estimated the grand total will reach 24,000,000 bottles at the end of the present year.

Gossip About People

A Brief Mention of the Comings and Goings by Those We Are Interested In.

Miss Mary Chesnut has returned from Danville.

Mr. and Mrs. Burton Stapp have been recent visitors in Lexington.

Mrs. R. E. McRoberts and Mrs. F. H. Marksbury were in Danville Saturday.

Mr. Lem Clark and Mr. Charles Hurkley were in Danville recently on business.

Rev. and Mrs. Price T. Smith have been recent visitors of friends in Danville.

Mr. J. M. Farra, Misses Fannie and Bettie West were visitors in Danville the past week.

Miss Mary Kurts, Mr. and Mrs. H. M. Kurts and sons, were visitors in Danville Friday.

Dr. and Mrs. J. M. Staughton, Mr. and Mrs. Clay Sutton were visitors in Lexington Monday.

Mrs. Nannie Syler, of the Morehead Normal school, has returned home for the summer.

Miss Stella Herring is visiting her uncle, Mr. Jerry Hooper and Mrs. Hooper, in Parksville.

Miss Ray Rucker Davis, of Campbellsville, has been a recent guest of Miss Christine Rucker.

Mr. Sam Harris, after a visit to his parents, Judge and Mrs. E. W. Harris has returned to Louisville.

Messrs. William Kavanaugh and Ed Walker were in Danville Friday afternoon mingling with friends.

Mrs. Joe Robinson, Mrs. Ed Gaines, Miss Helen Gill and Miss Mary Doty were Danville visitors Friday.

Dr. and Mrs. J. M. Staughton, of Covington, are guests of Mrs. Staughton's mother, Mrs. H. A. B. Marksbury.

Miss Margaret Cook, who has just graduated from Gunston Hall in Washington, D. C., will spend the June week at Annapolis, Md.—Danville Messenger.

Mrs. Frank Bradshaw has been a recent visitor in Danville.

Mr. and Mrs. J. E. Stormes were visitors in Danville the past week.

Mrs. H. E. Walter, of Lexington, spent Sunday with Mrs. Hallie Dunlap.

Messrs. James Croutcher and son, Robert, spent the day in Cincinnati Sunday.

Mrs. Jennie Kavanaugh Slavin has taken rooms at Mrs. Mary Logan's on Danville avenue.

Mr. Walter Bryant, of Louisville, was a week-end visitor in Lancaster of relatives and friends.

Mrs. R. E. Hughes and Mrs. Mae Hughes Noland have returned from a few days stay in Louisville.

Mr. John R. Lutz, of Harlan, is spending a few days with his mother, Mrs. Mattie Lutz and family.

Miss Lucille Sutton returned from Indianapolis, where she has been the past year in the school for the Deaf.

Mr. J. C. Buckner, of Lexington, has spent a few days of his vacation with his mother, Mrs. Sarah B. Buckner.

Mr. Willie Long returned to Cincinnati Sunday after a few days visit to his parents, Mr. and Mrs. M. D. Long.

Mrs. Mattie Duncan, Mrs. Fannie Farra, Miss Pettus, Mr. and Mrs. Cabell Denny were in Danville the past week.

Miss Angie Kinnaird returned Wednesday from Indianapolis, where she has been instructor in the School for the Deaf.

Mrs. Norfleet, state deputy of the Order of the Eastern Stars, of Harrodsburg, has been the guest of Mrs. E. B. Hourland.

Mrs. W. T. West, who has been spending several months with her husband in Bowling Green, has returned to Lancaster.

Miss Rebecca Syler, of Cumberland College, Williamsburg, returned home Thursday and will spend the summer vacation with her mother.

The Order of the Eastern Stars held their regular meeting Tuesday evening at the Masonic Lodge Room. Mrs. Naylor, State Deputy, and several members of the Harrodsburg chapter were present.

Mrs. Carrie Davidson left today for Tulsa, Okla., for several months visit to her son, Mr. R. L. Davidson and Mrs. Davidson.

Mrs. Sallie Ross Lawson and son, Mr. George Lawson, will leave this week for Michigan, where they will spend the summer months.

Rev. and Mrs. Henry N. Faulconer, of Hillsboro, Ohio, spent a few days this week with Mrs. Faulconer's mother, Mrs. W. B. Mason.

Mrs. W. R. Cook, of Danville, Mrs. Shirley Elmore, Mr. and Mrs. Theodore Wintersmith, of Louisville, visited Mrs. E. L. Owsley Sunday.

Mrs. Allen Johnson has returned to her home in Covington, after spending a few days with her parents, Mr. and Mrs. Charlie Poff.

Mr. William Davis, Mr. Thomas Davis, of Paint Lick, Mr. Leslie Prewitt and Mr. Thomas Palmer, of Kirksville, attended the birthday party of Miss Louise Godfrey, in Lexington.

Misses Lula Logan, district Home Demonstration Agent for Eastern and Central Kentucky, was in the city a few days this week, the guest of Miss Joyce Syler, our local Home Demonstration Agent.

Mr. and Mrs. Clay Sutton entertained Sunday at their home on Maple avenue with a family dinner party in honor of Dr. and Mrs. J. M. Staughton, of Covington. The home and table were decorated in pink roses and pink poppies. A four course menu was served, the color scheme of white and pink being carried throughout. Plates were laid for eight guests.

Members of the Soror's Club celebrated the advent of June and the adjournment of business sessions yesterday with a breakfast at the Audubon Country Club. Mr. H. G. Reynolds, president of the State Federation of Women's Clubs; Mrs. Geo. R. Newman, president of the Women's City Club and Mrs. Connor Brown were speakers.—Louisville Courier-Journal.

Mrs. Brown is well known here, having made her home here when her husband had charge of the Presbyterian church.

The Order of the Eastern Stars attended the 2nd. Anniversary of the Order of the Eastern Stars at Harrodsburg last Thursday evening. The Masonic Hall was beautifully decorated in white lilies, pink and red roses. The Worthy Matron, Mrs. Davenport, presided and the work of initiation beautifully staged. The Grand Worthy Matron, Mrs. McCannely, of Louisville, Past Grand Worthy Matron, Mrs. Bates, Past Grand Worthy Patron, Dr. Kelley were also present and made splendid talks. After the closing exercises a social hour was enjoyed. Sherbet, cakes and lemonade were served. The following members attended: Mrs. Louis Landram, Worthy Matron; W. O. Rigney, Worthy Patron; Mrs. W. B. Burton, Conductress; Mrs. Adolph Joseph, Associate Conductress; Adah, Mrs. Ross Bastin; Esther, Mrs. Wesley Dickerson; Electa, Mrs. Guy Davidson; Secretary, Miss Sue Shelby Mason; Treasurer, Mrs. Wood Burnside; Chaplin, Mrs. W. O. Rigney; Warder, Miss Frankie Kauffman and Sentinel, Mr. Ross Bastin; Mrs. Arch Walker, Mrs. W. A. Price, Mrs. Geo. Smith, Miss Joyce Syler, Miss Sarah Wilmot, Miss Eva Westover, Mr. J. M. Farra, Miss Mildred Beasley, Mrs. Sallie Rosa Lawson, Mrs. Logan, Mr. and Mrs. Raymond Haselden.

Mrs. J. C. Robinson left today for Lexington, where she will visit relatives.

Mrs. Herman Russell Wayland, of Texas, is the guest of her mother, Mrs. W. A. Price.

Mr. Tom Yantis, Mr. and Mrs. Will Embry and daughter were visitors in Danville Tuesday.

Mrs. Ike Dunn and Mrs. W. R. Cook, of Danville, were visitors of Mrs. E. L. Owsley Wednesday.

Misses Stella Broadbush and Pearl Flannery are guests of the latter's parents, Mr. and Mrs. Jim Flannery.

Mrs. J. E. Robinson, Miss Bernadine Engle and R. L. Elkin, were in Danville a few hours Tuesday afternoon.

Mrs. Emma Francis, Mr. and Mrs. Richard Anderson were in Lexington Wednesday evening and attended the Exposition.

Misses Pearl Flannery and Stella Broadbush, Messrs. Jim and Bill Wood and Dewey Broadbush motored to High Bridge Sunday.

Mrs. Fisher Gaines and son, Robert Curry, of Danville, are guests of her sister, Mrs. Margaret Curry Robinson, on Richmond street.

Mr. and Mrs. Henry Wood, of Harrodsburg are pleasant guests this week of Mr. and Mrs. John M. Farra and Mr. and Mrs. D. C. Denny.

Miss Martha Ward Sweeney and Miss Thelma Hamilton, students at Hamilton College, Lexington, are at home for the summer vacation.

Miss Mary Ellen Owsley has returned from Transylvania College where she was a member of the graduating class. She is now a Bachelor of Arts.

Mr. W. A. Farnau, after spending two weeks at Hot Springs, Ark., returned to this city yesterday, the picture of health and glad to be back. His friends were delighted to see him again.

Mr. and Mrs. John Brown, of Louisville, accompanied by their friend, Miss Lillian Collier, Brundage, Ala., will arrive this week for several weeks' visit with Mrs. Brown's parents, Mr. and Mrs. J. G. Burnside.

Mr. Bascom C. Ford after a siege of illness, that came near being fatal, returned to his home here last Sunday afternoon. His illness necessitated the amputation of one leg. He takes his misfortune pleasantly and says he is very glad to be at home again. His host of friends are just as glad to see him.

The Fabric of Dreams

"That new show of mine is going to be a sure-fire hit," announced the producer gleefully. "I've got a swell idea for costuming the chorus." "Uh-huh!" grunted the critic. "That's about all most of 'em wear nowadays."—American Legion Weekly.

The best in life seldom appeals to us until the other fellow has copied it off.

The great trouble with the rest of the world is that it expects too much of you.

If you would preserve harmony in the home, never tell your troubles to your wife—when she is at the bottom of them.

Express Appreciation

The Board of Commerce of Lexington, are deeply grateful for the courtesies extended to business men and citizens upon their recent short visit to our city. A letter from the secretary of the organization reads: Mr. R. L. Elkin, Editor, Lancaster Record, Lancaster, Ky.

Dear Mr. Elkin: We certainly appreciate more than we can express the warm welcome extended to our Boosters last Thursday in the headline across your special edition issued in honor of the arrival of our party. Lancaster will stand out as one of the pleasant memories of this very enjoyable trip, as we all met old friends galore the moment we arrived, and enjoyed every minute thereafter in their company. With best regards and assurances of appreciation, I am, Sincerely yours, C. F. Dunn, Secretary-Manager.

Mr. Fred Burman, editor and owner of the Mountain Advocate, at Harboursville, Ky., has sent an invitation to the editor of this paper, to be his guest at Dishman Springs Hotel, Friday and Saturday, June 9th. and 10th.

The invitation reads: Dear Fellow Editor:—The Mountain Advocate cordially invites you and your lady to be its guests at Dishman Springs Hotel, Friday and Saturday, June 9-10.

Mr. W. M. Dishman, owner of the hotel solemnly pledges chicken for the occasion. Bring your golf sticks and rods—the bass are biting.

Do not disappoint us but come and play for two days at one of the real beauty spots of beautiful Eastern Kentucky. We want to meet you and the other newspaper boys and girls of the State and promise you there will be no boring program, just a good time.

Automobiles will carry our guests to the Springs. Kindly advise your acceptance of our invitation.

Yours sincerely, Fred Burman, Publisher.

Sudan

Planted Now Will Make Summer Hog Forage

Sudan grass for hog pastures can be seeded as late as the middle of June in Kentucky, according to E. J. Wilford, swine specialist of the College of Agriculture. The crop is meeting with special favor among swine breeders and feeders because of its ability to continue growing during the hot, dry, Kentucky summers when rape and other pasture crops are dried up, he said. From 20 to 30 pounds of seed usually are drilled in each acre, the larger amount being preferable since it results in a thicker sod.

The grass is an exceptional rapid-growing pasture crop. A plot of it on the Kentucky Agricultural Experiment Station farm last summer averaged 15 inches high, when measured from the ground to the tip of the leaves, 16 days after planting. It is ready for pasture when about 10 inches high. The crop also is palatable and well liked by the hogs and usually is so rank growing that a large number of hogs can be pastured on it and a crop of hay cut afterwards.

Black Plant Lice

Open Attacks On Nasturtiums

This is the season of the year in which nasturtium growers find it necessary to give special attention to their plants in order to prevent serious injury to them by plant lice, according to N. R. Elliott, of the College of Agriculture extension division. Rolled leaves on the plant are the first evidence that these sucking

insects have begun their work, large masses of small black plant lice being revealed when the leaves are unrolled.

Although the lice are not hard to control, certain methods must be used since they belong to the class of sucking insects. They are destroyed by spraying them with materials that kill by suffocation, commercial tobacco mixtures being best for this. Instructions for mixing and spraying with these materials should be taken from the package and followed carefully. Careful examinations of the plants throughout the summer and frequent sprayings are necessary.

Use for Sea Ice.

An innovation in the fish industry of France is the making of ice from sea water, by a process which eliminates the concentration of salt, that usually occurs when brine or salt water freezes. This "salt ice" performs the double service of keeping the fish cold, and also of "salting down" the fish as a means of preserving them.—Popular Mechanics Magazine.

Keep Tight Hold on Temper.

The man who loses his temper is in the position of admitting to all who witness his exhibition that he is not master of himself. A loss of temper means loss of self-control. No man can enjoy the luxury of losing his temper regularly and enjoy long life. Neither can such a man win the lasting loyalty of his associates.—Tom Dreier in Forbes Magazine.

Not Merely a Knecker. Opportunity has various ways of making its presence known. To Newton it came with a thump as the apple dropped on his head. Watt heard it tap-tapping as the steam lifted the kettle lid.

Safe and Sound.

"You have been a long time!" "Yes, I took Paul a quarter of an hour to remember where the cloakroom tickets were." "And where were they?" "In my hand!"—Munich Megendorfer Blatter.

British Royal Marriage Rules.

British princes and princesses may not marry before the age of twenty-five without the consent of the king. If over twenty-five they may marry by giving notice 12 months beforehand to the privy council, unless parliament decides against the proposed match.

The First and Seventh Day.

The fourth commandment of the Jewish law distinctly commands that the seventh day of the week shall be a day of rest, on which no work of any kind shall be done. The early Christians observed the seventh day for a long time, because it was the law of the land. The fact that Jesus arose from the dead on the first day of the week led them to meet again on that day, and it gradually became a custom for them to meet on the first day of the week for Christian fellowship.

Widows Exercise Old Right.

Eight widows in the town of Auxerre, France, are to celebrate the five hundredth anniversary of an act of King Charles VII. decreeing that eight widows in that particular village shall always have rent free. A member of Charles' suite, who was wounded at the battle of Crevant, was nursed and cured by eight widows, and he provided for his nurses in his mansion in Auxerre. Later, Charles added the provision that the house should forever be the refuge of eight widows.

SURVEY SHOWS DIFFERENCE IN COST OF TRACTOR AND HORSES

Horses Being Used to Prepare Seed Bed.

(Prepared by the United States Department of Agriculture.)

The cost of power on tractor farms in the winter when belt is somewhat greater than when horses are used for all the work, according to the results of a survey by the United States Department of Agriculture. A preliminary report just issued shows, however, that three-fourths of the tractor owners were of the opinion that their tractors were proving profitable.

This survey shows differences in the cost of power and labor due to the use of tractors, the work done with them, and the cost per acre for different operations both with horses and tractors. Some 354 tractor owners in northern Oklahoma, Kansas and southern Nebraska were visited and a complete record of all work done with tractors and horses during the year was obtained, together with statements concerning the farmers' opinions of the advantages and disadvantages of using tractors. The farms averaged about 281 acres in size, on which 352 acres of crops were grown in 1921, nearly three-fourths of the crop area being in wheat.

The cost of using tractors for drawbar work on these farms averaged \$484 for the year, or \$1.01 per hour. These farmers were keeping an average of 8.3 head of work stock in addition to their tractors and the cost per farm of keeping the work stock for the year was \$541. Thus the total annual cost of power for drawbar work was \$1,025. The tractors furnished the power for 41 per cent of the drawbar work.

Variations in Cost of Power.

There were great variations in the practice and costs on individual farms and the results indicate that often the cost of using the tractors and keeping the work stock was ex-

been displaced and the value of the family and hired labor saved.

Had all the surplus horses been sold there would have been a further reduction of about \$115 per farm in the cost of horse labor. On many of the farms there had been a reduction of feed for work stock due to the use of the tractor, and if this had been taken into account a further saving of about \$47 per farm would have been shown.

The analysis of the cost per acre of power and man labor for different operations when done with tractors and horses gave the following averages:

Plowing spring and fall with tractors	\$1.39 per acre
Plowing spring and fall with horses	1.58 per acre
Lifting with tractors	1.10 per acre
Lifting with horses	1.03 per acre
Trailing tandem disks with tractors	.91 per acre
Trailing tandem disks with horses	1.06 per acre
Drilling with tractors	.69 per acre
Drilling with horses	.82 per acre
Trailing binder with tractors	.85 per acre
Trailing binder with horses	.94 per acre

Cost of Power on Horse Farms.

A group of 85 farms where tractors were not owned, but comparable in size to those where tractors were used, were surveyed in order to obtain a direct comparison between costs on farms where tractors are owned and costs on farms of similar size and type where tractors are not owned. There was an average of 10.5 head of work stock on these farms, of which 1.61 head were needed for the work. One horse was needed for each 33 crop acres while the tractor owners were keeping one for each 42 crop acres and needed, in addition to their tractors, only one for each 54 crop acres.

The cost per head of keeping the work stock was \$65 per year where tractors were not owned and \$64 where they were owned. The horses worked 182 hours per head on the tractor farms and 624 hours on the other farms. The cost per farm of power for drawbar work where tractors were not used was \$701 as compared with \$1,025 where both tractors and horses were used.

What Farmers Think of Tractors.

The owners' opinions regarding the use of tractors showed that 75 per cent of the farmers interviewed believed that their tractors would be profitable investments, and 72 per cent of them intended to buy others when needed. The principal advantages mentioned were the ability to do more work in a given time, and the saving of horses in hot weather. Among the disadvantages, the first cost and depreciation and the running expenses were mentioned most frequently. The tractor was used as the primary source of power for field work by 50 per cent of the owners, while 41 per cent used the tractors as supplementary to horses. In 21 per cent of the cases the tractor owners believed that the tractors had been responsible for some increased yield per acre.

Tractor Used for Disking.

sive for the amount of work done. Many tractor owners have not determined exactly what work they can use their tractors for most profitably and what should be done with horses.

The average cost per crop acre was \$3.57 per year for drawbar power for all the farms. This cost ranged from \$2.21 as the average for the fourth of the farms with lowest costs to \$4.74 for the fourth of the farms with highest costs.

The tractors had been in use for 24 months on an average and the first cost had been \$1,473, about one-third higher than the present price of tractors of the same size and type. During the year covered by the investigation the cost of fuel and oil was also somewhat higher than at present. On account of these lower prices it is estimated that the present cost of operating tractors purchased at current prices would be something like 25 per cent below the 1921 cost on these farms.

Tractors Reduce Horse and Labor.

The effect of the addition of the tractor to the farm equipment was shown in changes recorded after the purchase of the tractor. On an average, these farms had been increased by 50 crop acres and there had been a reduction of 1.4 months in the amount of regular labor used. Three and one-third head of work stock in addition to those on hand at the time of the investigations would have been necessary if the work had all been done with horses. The tractor owners considered that they needed in addition to their tractors an average of only 0.5 head, whereas they were actually keeping 8.3 head.

Effect of Use of Tractors on Power Costs.

There was a net increase of \$200 per farm in the combined cost of power and labor due to the use of the tractor, after deducting the cost of keeping the work stock which had

RICHMOND IS READY TO GREET VETERANS

Richmond, Va., June 5.—(Special).—Richmond has called for the remnants of that army which defended her for four years and by the thousands will the survivors answer the summons to be here on June 19, 20, 21 and 22. The last three days are these fixed for the welcoming and entertaining of the United Confederate Veterans at their 32d annual reunion. June 19 has been set as the date for beginning the ceremonies which will end with the attention of the Confederate Southern Memorial Association and of sons of Confederate Veterans.

Preparations are now complete for taking care of the enormous number of visitors who are expected to attend the reunion. The veterans will be made comfortable at the hotels, with friends or relatives and in private homes.

Provide Comfortable Quarters.

Upon their arrival at the railroad stations in this city, each veteran will be met by a member of the Reunion Committee, given an identification card and assigned to quarters. If previous arrangements for accommodations have not been made. However, Brigadier-General Jo Lane Stern, chairman of the Reunion Committee, urges that all visitors make their reservations before coming to Richmond, applying to the hotels or to the information and quarters committee, Postoffice Box No. 686, Richmond for quarters in private homes and boarding houses.

Reasonable cost, from \$1.25 to \$2 per day for lodging and breakfast, will prevail in private homes. Dinner and supper, with the compliments of the City of Richmond and the Commonwealth of Virginia, will be supplied Confederate veterans who desire them on June 20, 21 and 22.

Elaborate Program.

The program of exercises and entertainments probably will make this the greatest reunion in the history of the United Confederate Veterans. One of the most impressive exercises in which the veterans will take part will be the laying of the corner stone for the Matthew Fontaine Maury monument.

Addresses will be delivered by some of the South's greatest orators, there will be a great parade and review, band concerts, a Confederate ball and dozens of other features designed particularly to entertain and please the Old South's heroes.

Hunters Beware

We positively will not permit fox hunting or hunting of any character or trespassing on our farms. Any violators will be prosecuted.

LIVE STOCK FACTS

TESTING FOR TUBERCULOSIS

Reports Show That Eradication Work Can Be Carried on Without Destroying Industry.

(Prepared by the United States Department of Agriculture.)

That testing cattle for tuberculosis and the cleaning up of infected herds are having a permanent effect in reducing the extent of the disease is shown conclusively by figures recently collected by the United States Department of Agriculture from inspectors in charge of the eradication work in various parts of the country. The inspectors were asked to supply figures on the results of three or more tests on badly diseased herds, those that had not less than 10 per cent of reactors on the first test. The first test on more than 58,000 cattle in these herds showed that 26 per cent had tuberculosis. Another test six months later on the same herds from which the reactors had been removed, showed only 4.3 per cent of the disease. By another six months the percentage had gone down to 2.8. A fourth test on more than 25,000 of these cattle showed only 1.8 per cent of tuberculosis.

The reports from which these figures were taken show that under normal conditions herds very badly diseased may be established as relatively free in a short time. They also show that eradication work can be carried on without destroying the cattle industry as is sometimes

If Any of These Cows Have Tuberculosis the Hogs Following Them Are Certain to Get the Disease.

thought. Erratic results were obtained on a very few of the 1882 herds tested. The list of this class containing less than 100. Out of the 126,608 herds under observation December 1, 1921, there were only a very few that had not shown satisfactory improvement as a result of testing.

PREVENT ANIMAL DISEASES

By Taking Proper Precautionary Measures Many Ailments Could Be Thwarted.

Many of the diseases suffered by live stock on the farm could be prevented by proper precautionary measures, according to Dr. Robert Graham of the University of Illinois. Nearly all diseases to which animals succumb are preventable, he declares, and the surest way to keep your animals healthy is to adopt such health measures as will prevent them from getting sick.

The continuous use of old feed lots year after year without regard to rotation is one way to spread disease. Each class of live stock has its own peculiar ailments, which may be largely eliminated by the rotation of feed lots.

Keep yourself posted as to what diseases are prevalent in your neighborhood, and then do everything in your power to keep your own live stock from getting them.

FEEDS FOR WORKING HORSES

Mature Animals Require Starchy or Carbonaceous Rations to Furnish Needed Fuel.

The character of feed required by horses that are working is quite different from that required by young growing animals or dairy cows. Mature horses need starchy or carbonaceous feeds to furnish fuel rather than large amounts of protein. For this reason corn and timothy hay may be fed more liberally than such protein feeds as wheat and alfalfa. Oats furnish most of the protein needed, and a good rule for feeding a horse doing moderate work is given as one and one-fourth pounds of hay and three-fourths pound of grain to each hundred pounds of weight, but horses at hard work are sometimes given as much as one and one-fourth pounds of grain.

PASTURE IS PIG ESSENTIAL

Rape, Alfalfa and Clover Are Bone and Muscle Building Feeds and Chaffin Gains.

Pasture is of course vital to the best development of pigs. Rape, alfalfa or clover should be available to the spring pigs, as these forages contain much bone and muscle-building feed, and they help to cheapen gains.

WHICH DAILY PAPER?

A Question That Is Quickly and Readily Answered.

The Courier-Journal

Largest Morning Circulation of Any Kentucky Newspaper

Enjoys a nation-wide prestige and reputation. It is essentially a newspaper, intent upon giving news matter first consideration.

Maintains its own news bureaus at Washington and Frankfort. Member of the Associated Press. With important legislation coming before Congress and Kentucky General Assembly in 1922, The Courier-Journal is the daily newspaper you will need.

By special arrangements we are now able to offer

THE DAILY COURIER-JOURNAL AND THE

The CENTRAL RECORD Both One Year by Mail, For Only \$6.00

This offer applies to renewals as well as new subscriptions, but only to people living in Kentucky, Tennessee or Indiana. New subscriptions may, if desired, start at a later date, and renewals will date from expiration of present ones.

If you prefer an evening newspaper, you may substitute The Louisville Times for The Courier-Journal.

Send or bring your orders to the office of

CENTRAL RECORD

This One a Singer.

The golden-crowned kinglet has nothing much in the way of a song, says The American Forestry Magazine, but the ruby-crowned has a beautiful note of most surprising power for so small a bird, and, while singing, the male often elevates his ruby crown feathers.

Pirate Bees.

Haughty wild bees invade the time hives near Grays Harbor, Wash., and steal and carry away the honey to their hives in the forest. More than one-third of the domestic honey gathered in this district has been stolen by the robber bees. The wild bees make their homes in hollow trunks and cedar trees, where several swarms work on a community basis.

Fox Farming Growing Industry.

Although hardly known a decade ago, fox farming is a growing industry in this country, with 10,000 to 15,000 silver foxes being raised in captivity.

Nothing New.

Narratives in prehistoric manuscripts recently unearthed in Greece are of little interest. Most of us have heard them all in after-dinner speeches. —James J. Montague.

Lines to Be Remembered

Whatever the number of a man's friends, there will be times in his life when he has one too few, but if he has only one enemy he is lucky indeed if he has not one too many. —Lord Lytton.

PLEASANT HILL

Mr. Sim Ray is slowly improving. Mrs. Cath Johnson has been visiting relatives in Madison.

Miss Olive Preston spent last Sunday with Mrs. Ike Duncan at Coy.

Mr. and Mrs. Preston and children spent Sunday with Mr. and Mrs. Ray.

Miss Bennie Metcalf, of Paint Lick, is the pleasant guest of her sister, Mrs. Walker Burdette.

Master Holman J. McMillon spent the week-end with his grandparents, Mr. and Mrs. John Ray.

Mr. and Mrs. Goethe Ballard, of Bryantsville, are visiting her parents, Mr. and Mrs. Eron Ray.

Mr. and Mrs. Henry Ray and children were guests of her parents, Mr. and Mrs. Jim Simpson Sunday.

Mr. and Mrs. Speed Sherrow, of Mt. Hebron, were visitors of Mrs. Lewis Simpson Saturday and Sunday.

There will be a pie supper at Pleasant Hill on Saturday night, June 17, to repair the church and buy carpets. Everyone please come and bring pies or anything good to eat and help with this good cause.

Mrs. Walker Burdette's pen of buff leghorns of 24 hens has broke the record for laying. She has sold and set 60 settings since March 1st, and several eggs have been put in market beside.

GUY.

Mrs. Wm. Scott visited Mrs. Wm. Scott Wednesday.

Dr. Pryor, Veterinarian. Phone 168, Lancaster, Ky.

Mr. and Mr. Henry Tuttle spent Sunday with Mr. and Mrs. Joe Turner.

Mrs. William Sutton was a visitor Tuesday afternoon of Mrs. Harry D. Rice.

Mrs. Mattie Wiley, of Paint Lick, is visiting Mr. and Mrs. George Brown.

Mr. and Mrs. Porter Pruitt were recent visitors of Mr. and Mrs. Roy Prather.

Miss Laverne Whittaker was the guest Sunday of Misses Marie and Thelma Clark.

Mr. and Mrs. Edd Baker and

daughter, Zada Hyer were visitors in Hanville Sunday.

Mr. Alfred Poynter and son, Calvin visited Mrs. John Askins, of McCreary Wednesday.

Miss Mary Poynter, of Lincoln, was the guest the past weekend of Mr. and Mrs. Alfred Poynter.

Masters Earl, Ed and Jay Baker returned home Sunday from a visit with Somerset relatives.

Little Miss Lotta Briggs spent Thursday night with her grand-parents, Mr. and Mrs. Wm. Smith.

Miss Sallie Mae Graves spent the past week-end with her sister, Mrs. Holman Brown and Mr. Brown.

Misses Nolie and Lucy Turner were Sunday visitors of their cousins, Misses Mollie and Ethel Barnes.

Mrs. Roy Prather and son, Collis O'Neal visited Mrs. Marshal Preston of McCreary Wednesday afternoon.

We want to sell you a new huggy for cash or note. Price right. W. D. Pryor and Co.

Mrs. James Yentis and son, Herschel, were in Hanville visiting the past week, guests of Mr. and Mrs. J. B. Adams.

Mrs. Carrie Davidson, Mr. and Mrs. Guy Davidson and two sons, of Lancaster, were Sunday visitors of Mr. and Mrs. W. T. Sutton.

Mr. and Mrs. Raymond Turner are receiving congratulations over the arrival of a little daughter, born June 1st, named Beloris Allene.

Mr. and Mrs. Harry D. Rice were six o'clock dinner guests Friday of Mrs. Carrie Davidson and Mr. and Mrs. L. G. Davidson, of Lancaster.

Mr. and Mrs. Milton Ward, Messrs. Tom and Grover Ward, Mrs. C. R. Henry and two children, James Milton and Louise, spent Sunday with Mr. and Mrs. W. G. Clark.

Mr. and Mrs. John Prather had for their visitors Sunday Mr. and Mrs. Wm. Lane and little son, Mrs. Carl Pendleton and baby, Misses Fionnie Mae and Savannah Lane.

One of the most delightful events of the season was the social the past Thursday afternoon at the home of Mr. and Mrs. Edd Arnold. The following accepted their hospitality: Misses Marie and Ethel Barnes, Laverne Whittaker, Gladys Humber and charming visitor, of Texas. Pictures were taken and games played and all present enjoyed themselves to the fullest.

Vale!

It is not well To say farewell To such rose showered days As we have known in Hopkinsville. So Au Revoir, for still The thrill Of such a welcome will Go with us home and beautify In other years the coming Mays. So it is just "Goodbye" Hail, and well met! Dear hostess town, for we regret That ever must such partings be. We hope to meet Again and greet Each hospitable heart Whose pleasure 'twas to lend a part To make up the ensemble fine Of charm and graciousness like thine Hopkinsville! And now we crown A sister town Queen of this May So today That crown divine Rests on the head of Hopkinsville. —Ira Earle Fowler.

The above charming poem expresses the sentiment which all the delegates to the Kentucky State Federation of Women's club feel toward Hopkinsville since the convention there last week. It is copied from the "Daily Jost" column of the Hopkinsville New Era which the editor, Mr. T. C. Underwood, conducts so cleverly and the following is what he said in the same column for his own goodbye: "Kentucky Club Women."

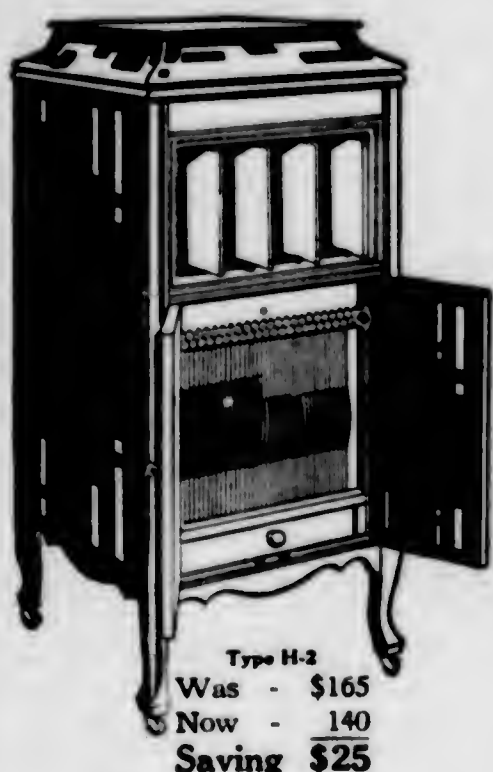

"Goodbye ladies; we enjoyed your visit to Hopkinsville, and we hope you will come back to see us often. Individually and also as a federated body. What we liked about you, quite as much as your earnest determination to make life better and happier in the commonwealth, was your sweet womanliness, your lovely looks and your unmannish frills and furbelows. Kentucky club Women, thank the good Lord are not self-made men."

Proof conclusive that they are all looking our way lies in the fact that Swiss cheese made in the United States has a ready sale in Switzerland.

Voice Never Permanently Changed.
If the quality of the voice does not change appreciably with the years, neither can it be changed to any great extent by the vocal gymnastics. Numerous are the "methods" and "systems" advertised with this end in view but they are futile. Great singers are born, not made. Throat training may through often it does not help to develop volume, suppleness and range of utterance, but the quality changes but little if at all.—New York Medical Journal.

Fur Seals in the Pacific.
The fur seals which make their home on the Pribilof islands, a barren group in the Bering sea, disappear from the islands at the beginning of the winter, and throughout that season are scattered about the waters of the North Pacific. Some of them never leave the ice, some about Alaska but others venture as far south as the coast of California. But wherever they may be, when spring comes distinct bands return back to the desolate little islands.

Two Dogmas, Both Bad.
Education as well as religion has its dogmas, and they are equally dangerous. — Winston Churchill, in North American Review.

Wara Pratty Wall Advanced.
Fighting contractors and crooked officials of Sumnerian civilization in Mesopotamia 5000 years ago were tried briefly and thrown into the river, according to recent scientific discoveries. Among other things, they had an elaborate banking system, with a reserve bank comparable to our own of today, a postal system with a parcel post branch and circulating tickets, which distributed clay tablet books.

The Fox in Japan.
In Japanese mythology the fox is represented as having been born first into this world at the descent of the Sun Goddess, and even now a fox is regarded by the humble classes as a messenger from heaven.

Brief and Comprehensive.
Ben Harker has an express agency and transfer business in a village in Sonoma county, California. Recently he detailed one of his teamsters with a wagon and pair to take a San Francisco man and wife to their country place a few miles out of town. The toll, as rendered by the teamster, read: "Haul crop, crops and people, three hours, three dollars."

Some people live well on little money

THEY know how to buy food, how to cook it and how to keep it so that flavor and nourishment are fully retained. That's the whole secret.

No well-informed housewife, for instance, would be without ice in early Spring. The weather is too changeable; the temperature is too warm. The food might not spoil so badly that it could not be used; but it would lose the appetizing flavor which makes eating a pleasure and it would have less of the nourishing quality which your children especially need.

From now on, ice should be taken regularly. It actually saves money.

THE INTERVIEW
By AGNES GRAHAM BROGAN
Copyright, 1922, Western Newspaper Union

Gertrude Humphreys May had been interested and remarkably helpful in promoting child welfare, instituting leagues and working tirelessly for the lower parts of great cities. Her name did not become famous until she had, understandingly, written personal stories of various small town subjects. There was about her a certain charm of the charm of sincerity. One could almost see the pleading eyes of Pauline Traversi as one read the tragic story of the child's life, and one could laugh over the escapades of Tiny Tony Magnifico.

Gertrude Humphreys May was entitled to her fame. But newspaper men found her a difficult person in the matter of interviews. Club women all over the country were clamoring to hear this clever woman's views on certain vital questions, anxious to see her picture, to know something of her personality. In vain Miss May declined to be published in magazines, determinedly she refused all ambitious newspaper reporters.

And because of this the Daily Herald was more than anxious to make that request, so it was decided to send Bill Hampton out for the Gertrude May story.

He just went after his interview and got it. Everybody liked Bill. "The High Brow," as the office force justly referred to the difficult lady, was known to be stopping at a secluded inn on the Hudson. When Bill reached the adjoining village he learned that Miss May and her niece occupied an apartment at the rear of the beautiful summer lodge, and that Miss Gertrude May might be seen every morning walking in the rear garden, while her niece crimped on a high garden wall and watched for invaders.

Upon the approach of a stranger, the niece referred to as "Gerry," would slip down from the wall to give her aunt warning to retire.

Bill intended to waylay the niece herself upon one of her afternoon walks and endeavor to win her over to interview for him. Miss Gerry May usually spent her afternoons with book or sewing on a bench-tree set back from the road. So Bill Hampton found her. As he was always frank in his methods, he presented to her his card with explanation.

But she shook her head at him. "It's no use," she said. "Miss May could not be persuaded to see you. She will not talk for publication. She is busy most of the time now with her new book of stories. I don't blame her for not wanting to be bothered."

"But you see," explained Billy dolefully—"he had stated himself at Miss Gerry's side—"this thing would mean a big scoop for me. And I'm after fame too, by way of advancement in my business. I sure do work hard for that. And if your aunt refuses to see me, couldn't you see as a sort of interpreter—get her to tell you her views and all that?"

Gerry laid down her sewing and considered the eager yet humble young man before her.

"Why," she asked slowly, "would it be, as you say, a great scoop for you? Would it really help you out in your profession?"

Bill seized his advantage. "Your aunt has always been charitable inclined," he suggested. "I am sure the old lady has a kind heart. And while I am not exactly on the lowest step of the newspaper ladder—" Bill paused then his eyes lighted up in anticipation. "It certainly would be a big thing for me," he said.

"Well, go on with your questions," she invited. "I'll take a chance on answering."

His glance was gentle but disappointed. He hated to hurt the feelings of this obliging little creature, but Gerry's interpretation of her cultured aunt's views would, he realized, scarcely measure up to the reputation of that unusual woman.

"Couldn't you," he stammered, "get her to write out the statement for you—a statement ready for publication?"

The niece's eyes met his, brown eyes, easily reproachful, then suddenly laughing eyes with golden lights in their depths. Bill's heart fluttered and the dithering was not at all unpleasant. The girl laughed and then Bill laughed too; a laugh of pure enjoyment in life and its surroundings, a happy laugh in the companionship of this winning girl, whose fathomless eyes held and thrilled him strangely.

"No," the girl answered him quietly. "I could not get Miss May to write out a statement for publication for you see, it's much easier to talk I, myself, happen to be that hunted down writer. And as you kindly suggest, being also a charitable inclined and kind-hearted old lady, I will help you with your scoop."

Bill Hampton stared.

"But," he began, then halted incredulously.

"Aunt Gertrude Humphreys May for whom I am named," Gerry patiently explained, "disparages me about wherever I go, and I can't talk intelligently upon the subject of child welfare," she added, "being vitally interested."

So Bill confidently got out his pen and paper.

"Did you get the high brow?" the boys at the office asked him, but he did not hear their question. He was wondering how he would be able to get his work out of the way tomorrow in order to catch the 1:30 out to Hudson View Inn.

Mother-To-Be, Read This—

Here is a wonderful message to all expectant mothers. From this moment on, cast from your mind all dread and fear, and feel every day as the months roll by that great freedom from much of the suffering which thousands of expectant mothers undergo, unnecessarily. And when the little one arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend." Mrs. C. J. Hartman, Scranton, Pa., says:

"With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used Mother's Friend and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes."

"Mother's Friend" is applied externally to the abdomen, back and hips. It aids the muscles and tissues to expand easily. It penetrates quickly. It contains no narcotics or harmful drugs. It is safe. There is no substitute. Avoid useless greases sometimes recommended by the unqualified. "Mother's Friend" is sold by druggists everywhere.

NOTE: Write for subjects free illustrated book, "Motherhood and the Baby," containing important authoritative information, which every expectant mother should have. Send 10c to "Mother's Friend," c/o Bradfield Regulator Company, B. O. Box, Atlanta, Ga.

McROBERTS DRUG STORE
Lambs Make Up 80 Per Cent of Market Sheep

More than three-fourths or about 80 per cent of all the sheep that go to market are lambs, market receipts show. Demands of the consuming public for small, juicy cuts which cannot be obtained from older sheep and the fact that sheep return larger profits when marketed as lambs are pointed out by L. J. Harlach, in charge of sheep work at the College of Agriculture, as the two main reasons for this condition.

"The most profitable lamb is the one which reaches marketable weight at an early age and requires a minimum amount of feed. The most popular weight for lambs is about 80 pounds although early in the present season those weighing around 45 pounds topped the market. As a general rule, no lamb weighing less than 60 pounds will bring a top price."

"Quality and breeding are continuing to command a premium on our markets. Experimental work at the Kentucky Agricultural Experiment Station has shown that lambs sired by pure bred rams not only weigh more a head when five months old than those sired by scrub rams but also that they sell for an average of 50 cents more a 100 pounds because of their type and quality. After the middle of May, markets begin to discriminate against a bucky lamb, the loss on these having been as much as \$4 a hundred pounds in some instances already this year. The meat from buck lambs is coarser and less palatable than that from weather and ewe lambs."

"Under average conditions, lambs intended for the market should be sold at weaning time. Records at the station farm show that during the hot, summer months they make little or no gain during the fall months than they are earlier in the season is an additional factor in favor of selling the lambs immediately after weaning."

"Large numbers of ewes are raised for breeding purposes each year by caking of their udders at weaning time. Placing them on dry feed or sparse pasture to check the milk flow and milking the udders out two or three times to prevent congestion will help prevent this. Ewes usually are dried up from four to six weeks before the beginning of the next breeding season."

Wives Expensive in Kurdistan.
Wives in Kurdistan have to be bought. Several thousand dollars will be paid for a damsel of high birth and attractive appearance, and her father will usually expect to be given, in addition, a pony and some costly changes of raiment.

Surgeon to Birds.

Miss Virginia Pope, a surgeon to birds, intended to be an artist when she started out in life. She became interested in birds while selling prepared bird food in order to maintain herself while Art was still a bookish Muse, with nothing substantial, from a financial standpoint, in her luring palm. The birds were so fascinating that Miss Pope decided to devote herself to feathered friends and let Art drift on over the mountains.—Exchange.

The Herald is delivered by carrier to your home at a most moderate rate. **SUBSCRIBE NOW!**

Character Formed by Reading.
An hardly anything can accidentally touch the soft clay without stamping its mark on it, so hardly any reading can interest a child, without contributing in some degree, though the book itself be afterward totally forgotten, to form the character.—Whately.

Consistency.
Betty—"The idea of Bob whistling to attract my attention; I felt insulted and wouldn't notice him—Hark! What's that? It's Jack looking his auto horn for me to come out. Excuse me, dear, I must go."

Architect of His Own Fortune.
The proverb, "Every man is the architect of his own fortune," is found in most modern languages. According to Sallust, Roman historian, the phrase originated with Appian Claudius Censor, who held the office of censor in 112 B. C. A century later Plautus, a Roman dramatist asserted that "the wise man is the maker of his own fortune, and, indeed, he is a bustling workman, little can befall him which he would wish to change." Another form is, "His own character is the architect of everyone's fortune."

Freak Phrase.
At the club the other evening the conversation turned to palindromes, words and phrases which spell the same whether you start at the beginning or at the end. One member remarked that the best palindrome he had ever seen—the best because it was a perfectly natural sequence of words in an advertisement—was a sign which appeared in a drugstore window many years ago. It was at a time when Red Hood was popular as a curative agent and the palindromic sign ran: "Red Hood Put Up to Order."—Boston Transcript.

Linzer Carries Fish in Tanks.
In one of the big tourist steamships leaving New York for a Mediterranean cruise, live fish were carried in tanks for consumption on the liner dining-tables.

Oldest Biblical Versions.
The four oldest versions of the Bible are the Aquila, Symmachus, Theodotian, in Greek, and the Peshitta in Syriac.

Biographer's Chief Task.
"One of the most delicate secrets of biography," says Gamaliel Bradford, in his "American Portraits, 1875-1900," "is the distinction between gossip and psychological and spiritual truth. Gossip, the mere accumulation of quaint but irrelevant details, may stimulate curiosity but it satiates and wearies in the end. But even insignificant touches, trifling notions, brief words that throw open a wide window upon the soul are inevitably fascinating to the true analyst. It is the proper task of the biographer to separate gossip from the things that really count."

Immune.
Once there was a conductor who was not satisfied with his wages, and left. The next day, while looking for a job, he happened to step on the third rail. Did he get killed? No. He was a nonconductor.—Science and Invention Magazine.

A Little Imitator.
A tiny girl of five taken to a vaudeville show was much impressed with the ventriloquist. That evening while saying her prayers she asked God to look after her brothers and sisters and to make her a good girl—then after a brief pause she was heard to say, sotto voce: "All right!"

ARE YOUR CHILDREN EXTRAVAGANT?

To allow a child to become extravagant, no matter how well-off the parents may be, is to seriously interfere with the development of its character. Extravagance breeds idleness and a lack of appreciation of values. A pampered and over-indulged child can never really experience those joys and pleasures that are the birthright of childhood.

WALKER BROS.

COMMISSIONER'S SALE OF LAND

GARRARD CIRCUIT COURT.
Robert Long, Plaintiff,
VS.
Hettie Ballew, et al., Defendants.

Pursuant to a judgment rendered at the March Term, 1922, the undersigned Commissioner will sell at Public Auction to the highest and best bidder, before the Court House Door in Lancaster, Ky., at 11 o'clock, A. M. or thereabouts, on

MONDAY, JUNE 26th, 1922,
the real estate mentioned in the pleadings and described as follows:

In Garrard County, Ky., and on the waters of Back Creek, and West of the Hyattsville and Kirksville and Nina pikes, and bounded as follows:

Beginning at a point at the intersection of Nina pike, with the Hyattsville and Kirksville pike; thence with the center of Hyattsville and Kirksville pike S. 60. W. 6.33 chains to a point on the West edge of pike, opposite a gate, S. 43. W. 7 chains to a point on West side of pike, S. 9. W. 6.34 chains to a point in center of pike, corner to the lands of Wiley Prewitt; thence with his line fence N. 85. W. 15.70 chains to a stone, Prewitt's corner and in Walker Logan's line; thence with Logan's line N. 22. E. 7.04 chains to angle in stone fence, N. 21. W. 11.40 chains to a stone in Logan's line, corner to Carl Prewitt; hackberry pointer; thence with Prewitt's line, N. 82. 3-4. E. 8.30 chains to a white walnut, N. 25. E. 4.79 chains to a post on North side of a drain, N. 84. E. 1.18 chains to a mulberry, S. 86. E. 7 chains to an ash stump and Lynn, N. 70. E. 9.28 chains to center of Nina pike; thence with center of Nina pike, S. 8. E. 12.47 chains to the beginning, containing 47.66 acres.

Being part of the same land conveyed to Hettie D. Ballew by Jane Ballew and others by deed dated March 23, 1896, recorded in Deed Book 13, page 301, Garrard County Clerk's Office.

The purpose of said sale is to satisfy the debt of the Lancaster Cemetery Company of \$1,500.00 with interest from January 16, 1919, until paid, and second to satisfy the debt of Robert Long for \$6,500.00 with interest at six per cent from January 1, 1921, until paid, subject to a credit of \$3,100.00 of date April 24, 1922, and third, to satisfy the debt of the Lancaster Cemetery of \$650.00 with interest at six per cent per annum from May 6, 1921, until paid, and fourth, the debt of A. D. Joseph of 1695.08 with interest at six per cent per annum from June 21, 1921, until paid, and \$72.70 with interest from January 1, 1922, until paid, and the estimated cost of this action amounting to \$250.00.

TERMS.

The sale will be made on a credit of six and twelve months, and the purchaser will be required to execute bonds with approved security, for the purchase price, payable to W. H. Brown, Master Commissioner, due in six and twelve months respectively, with interest at six per cent per annum from date until paid, having the force and effect of a judgment upon which execution may issue, and a lien will be retained upon the property until the purchase money is paid.

W. H. Brown, Master Commissioner of Garrard Circuit Court, G. C. Walker, Atty. for Plff.

Occasionally some fellow lets out a vap about it being a "long time between drinks." But apparently he is in a class by himself.

Hint.
Little Girl of Four (standing entranced before the gifts in window of toyshop)—Oh, mother, if you was my little girl wouldn't I take you in and buy some of those lovely things! —Scotsman

Some Day.
The day will come when women will pay no attention to styles in dress, says an exchange. On that same day all the claims will come out of the sands, rear themselves on their hinges and bark at the moon.—Portland Express.

Shabby Leather Chairs Brightened.
When leather chairs begin to look shabby try this remedy. Wipe all dirt and dust from the chairs and then rub with a cloth that has been dipped into white of egg, well beaten. Rub well with soft clean cloths when dry and the leather will look like new.

Plants That Catch Cold.
That trees, like human beings, are liable to catch cold, was a point in a paper on "The Relation of Soil to Plant Growth," read in England at the Surveyors' Institution. "Plants respond to changes in environment," said the author.

Concerning Floor Coverings.
Floors are not only part of the background of the room along with the walls and ceiling, but they also form the foundation of the whole decorative scheme. Therefore the floor coverings must necessarily be darker in color than the walls, otherwise they will spoil the entire proportion of the room by the effect of instability produced.

Putting Asunder.
The late Lord Halsbury was on one occasion addressing a gathering of legal conferees. The subject was "Matrimonial Law," and much laughter resulted when he reminded his hearers that Sydney Smith once wrote that "frequently it is that those persons whom God hath joined together in matrimony, ill-cooked joints and badly boiled potatoes have put asunder."

Clock With Twenty Dials.
A clock in San Diego, Cal., has 20 dials, and the time of day or night in various parts of the world can be seen at a glance. The dials also show the day of the week and the date. The clock, which is 21 feet high, is encased in plate glass. Four of the dials are each four feet in diameter. It is jeweled with coral, lapis, and jade, is illuminated at night, and winds itself automatically.

Wheelbarrows Climb Stairs.
One of the interesting sights of the city of Changsha in China, is the wheelbarrows which climb stairs. Some distance ahead of the regulation wheel there is another smaller one. In climbing over curbs, steps or bridges, the handles of the wheelbarrow are lowered until the auxiliary wheel rises above the next higher step. Then the wheelbarrow, which often carries 200 or 300 pounds of saws from wheel to wheel until the next level stretch of highway is reached.

"Biddy" Has Long Pedigree.
The chicken, common farmyard fowl, has a pedigree that has been traced back to 700 B. C., when chickens were fluttering about homes in southern Asia, Dr. Clark Wissler, noted anthropologist, says. Within a comparatively short time, considering lack of transportation and the great distance, chickens appeared in Africa, Doctor Wissler says. Next they appeared in Egypt, according to traces found, and after this they became scattered until they were more or less common throughout the world.

OFFER \$700,000 STOCK IN POOL SUBSIDIARIES

Growers Will Be Given The
First Chance to Subscribe
Nearly 500 More Contracts Received
At Burley Co-operative
Headquarters

An issue of seven hundred thousand dollars of preferred stock in the various warehousing corporations subsidiaries of the Burley Tobacco Growers' Co-operative Association is being offered this week and next to growers of the district. It is the wish of President James C. Stone and the directors of the association that growers be given the first opportunity to subscribe for this stock and banks throughout the burley district will receive subscriptions.

The preparations for the issue are in the hands of fiscal agents, James C. Wilson & Company, the well known stock brokers of Louisville, who will advertise the issue in all the newspapers of the Burley district the coming week. The stock subscriptions must be in the hands of the fiscal agents or of the association by June 15th, as the warehouse properties are to be taken over as of that date, under the warehouse contracts signed by the former owners on the one hand and Director of Warehouses Ralph M. Barker, acting for the association, on the other.

The stock, in order to make it attractive even to the smallest grower, will be issued in shares of \$10 par value, thus giving every grower an opportunity to own some of this stock. It will pay 8 per cent guaranteed dividend, the main association being the guarantor of both principal and dividend, and should prove, in the opinion of bankers of the district, an attractive investment.

Nearly 500 New Contracts
Nearly 500 additional contracts were received the past week at the offices of the Field Service Division of the Burley Tobacco Growers' Co-operative Association, Assistant Chief William Collins reported Saturday. The exact number was 486. Assistant Manager James A. Dixon, of the Huntington, West Virginia, district, said that 181 contracts had been signed in that territory. These, however, had not been received at the Field Service Division offices and, therefore, were not included in the week's report of contracts received.

Mr. Dixon, who was in Lexington for a brief visit before returning to his field of labor, said the association was gaining rapidly in western West Virginia and Eastern Ohio and that the campaign had reached a point at which it was deemed advisable to start county organizations. Many of the burley growers of Gallia and Lawrence counties in Ohio, have signed the contract. Warehouse interests are waging a vigorous warfare on the association but with a purpose so evident that it is having little effect in that territory.

Director of Warehouses Ralph M. Barker returned from a week's active work in the field, having finished valuing warehouses over the entire district. The past week he was in southern Ohio, including the towns of Ripley, Georgetown, Peebles and West Union, and also visited Brooksville, Augusta, Vanceburg and Grayson.

Everybody Pleased
"I didn't find a single sorehead on the trip," said Director Barker. "We have arranged for the taking over of almost all the warehouses and have had no difficulty in reaching an agreement with the owners as to actual value, without arbitration. I have found the warehousemen fair and entire absence of any disposition to take advantage of the association. We rather expected that situation, inasmuch as most of the warehousemen are tobacco growers and members of the Association."

The latest flapper to startle an already grasping world wears a thimble on her finger in public, to signify that she would make a good wife. Next! The Lord made the world and all the people therein, and we often wonder if He feels ashamed of some of the "birds" He produced.

HIS BIRTHDAY

By DOROTHY KNIGHT

The world looked bright and rosy to John Patterson. It was his thirtieth birthday and his second wedding anniversary, and he had just received a substantial increase in salary. He could hardly wait to tell Mary the good news.

He hurried home only to find the apartment deserted. The tiny kitchenette, however, showed that everything was in readiness for a hurried assembling of the dinner on her return.

He wandered aimlessly and feverishly around. He looked about for the note he had so often found, explaining her delay, but there was none. There was, however, a note half concealed under some bills, which he took out and read mechanically, until the full import of it reached him like a sharp stail. His eager happiness was changed to acute suffering. He read:

"Dearest Jim—Your letter arrived this morning and has made me gloriously happy. It has lain next to my heart all day and through the monotonous dishwashing, sweeping and dusting of my life has run the wonderful melody of your love. It has made me very happy, and it will make me very happy all through the years to come to know that you love me, even though the knowledge of your love is all I have, for I can never have the reality. We must renounce—"

He read to the end and then with a heart as heavy as lead he paced the floor.

"Why John, what's the matter? You look as if the bottom had dropped out of the universe."

He started at her unexpected presence. He had not heard her come in.

"Why, I guess I have a slight headache. Been working rather hard today."

"You poor dear, and I bet you are half starved, too. But I will have dinner ready in a jiffy."

"You poor dear, you're too tired even to eat. I wish you didn't have to work so hard. I hate to have you slave away at the office every day just to earn money for me to spend. I do wish I could help you. But I do try to be economical."

"You're a wonder, Mary. You're the best manager in the world."

He tried to speak naturally. He must not let Mary suspect he knew her secret until he had decided what to do.

Somewhat the dinner was finished John, strangely silent, but his wife as merry and talkative as ever. If she noticed his silence, she attributed it to his being tired.

When they were comfortably settled in the living room he immediately took up his evening paper.

"Well, what day is it?"
The question cut deep.

"I don't know," he muttered, from the depths of his paper.

"Why, John Patterson, aren't you ashamed of yourself?"
No answer.

"And after I've worked so hard to get you a present that I earned all myself."

No answer.

"If that's all the interest you take I'm glad I'm no Eleanor Hallowell Abbott, and couldn't afford to buy a sedan for a present."

Still no answer.

"Well, don't you want to know what I got you?"
"Why, of course. What is it?" in a lachrymose tone.

"Well, it's on the table beside you." He reached out for a much belabored package, with trembling hands, and started to open it.

"Dear, I'm really afraid you're going to be sick. You look so pale."

"Nonsense. I'm all right. Well, this is just fine. That's my favorite cigar, but I can't afford to smoke them every day. Oh, I have a package for you, too."

WASH ALL MILK CANS AS SOON AS EMPTIED

Most Dealers Have Appliances for Cleaning Utensils.

Hotels, Restaurants and Others Buying Milk in Wholesale Quantities Are Particular in Giving Attention to Containers.

(Prepared by the United States Department of Agriculture)

Sterilizing Dairy Utensils is an Important Factor in Keeping Milk Sweet.

become sour as a result of the multiplication of bacteria in the film of milk left in the can. Cans that become foul in this way are hard to clean when they arrive at the plant. Investigations show that hotels, restaurants, bakeries and other places which buy milk in wholesale quantities do not always give proper attention to the containers. As soon as the cans are emptied they are placed on the doorstep or left in a warm room until collected by the dealer. They return to the plant teeming with bacteria, and the mechanical washers will not always clean and sterilize them thoroughly. They must be soaked, washed by hand with a brush, and then sent to the machine washer. Consumers can help a great deal in making it easier to maintain a safe milk supply. All that is needed is a little care at the right time, says the department.

PLAN FOR SUMMER SPRAYING

More Care and Attention Necessary Than Work in Winter—Combination Save Time.

Summer spraying requires more care and attention than winter or dormant spraying because summer sprays must be applied after the buds or leaves are started and hence when there is danger of injuring the foliage. The common spray for the control of chewing insects is arsenate of lead, but arsenate of calcium is gaining in favor. Paris green is still used to some extent on Irish potatoes and tobacco. Nicotine sulphate, or tobacco parts, sometimes called blackleaf, is effective against plant lice. Bordeaux mixture is an effective spray when reduced to summer strength for apples, pears, grapes and other fruits.

But there are combinations for various fungus diseases and insect pests that save time and trouble and are highly recommended by practical or chardists and gardeners.

SOY BEANS AND SUDAN GRASS

Combination Makes Good Feed and May Be Handled Like Timothy—Work Land Well.

Soy beans and sudan grass seeded together at corn planting time and cut for hay when the beans are in the dough stage make good feed, and may be handled same as timothy. Moist black land is suitable for this use, and some of the alkali soil may be used to advantage for this crop mixture. Work the land down well, and sow broadcast about 12 pounds of sudan grass to the acre, then drill in three pecks of soy beans. The drilling will cover the grass seed. Mammoth Yellow or Holbrook Mongli are good soya.

SWEET CLOVER FOR PASTURE

All Types of Plant Make More or Less Undesirable Hay Because of Its Coarseness.

Under most conditions sweet clover can only be used profitably as pasture. When it is decided to use it for this purpose, the cattle should be put on it and not be allowed other pasture until they start to eat it. This will take a day or two, after which they will thrive on it. All types of this plant make a more or less undesirable hay because it is coarse and has comparatively few leaves. For the best quality of hay, it should be cut just as it starts to blossom.
